# STRIKERS MAY DEFY CHIEFS

## LAYS BASE FOR WARS ASSERTS SOLON

Pennsylvanian Attacks Pact In Hot Speech; Says Not Lasting

### DECLINE TO BE PARTY TO IT, HE ADVOCATES

Declares Its Provisions Rob China and Germany Can Not Keep Terms

WASHINGTON, Aug. 29.—The treaty now before the senate is merely the "truce of Versailles," not a treaty of lasting peace; it does not spell peace, but war—war more woe-filled and devastating than the one just closed; it "lays the foundation for centuries of blood letting."

This characterization of the pending treaty was presented to the senate today by Senator Knox, Pennsylvania, in a speech in which he stated that "the more I consider this treaty the more I am convinced that the only safe way for us to deal with it is to decline to be a party to it at all."

As the facts concerning the treaty became apparent to the American people, Knox said, "they may now hope to see the whole of the great gaunt tragedy into which those whom they had charged with protecting them were about to betray them."

### SETH BURT GUILTY OF FIRST DEGREE MURDER

SAN LUIS OBISPO, Aug. 29.—Seth Burt, 22, was convicted of first degree murder late last night, following trial on the charge of murdering David Morehouse, night watchman at Paso Robles. The jury recommended life imprisonment.

The youth frankly admitted in a confession that he shot the officer when Morehouse interfered while he and Hugh Moore, 19-year-old Rogue River, Ore., boy were robbing a store. The defense sought to prove that Burt is the victim of hereditary insanity and that he also suffered injury to his head in an accident at Camp Kearny last year.

In his confession, made before his trial, Burt declared that he had been involved in scores of automobile thefts throughout California.

### TWO FREIGHT SHIPS CRASH IN CHANNEL

NEW YORK, Aug. 29.—The Munalra, a 3,750-ton freighter of the Munson steamship lines, was badly damaged in a collision early today with the British freighter Hortensius in the Ambrose channel. The Munalra was reported safely anchored at Red Hook flats at 5:20 a. m., where she was able to proceed under her own steam. No lives were lost.

The Hortensius was reported heading into New York harbor under her own steam with a badly damaged stern.

## Senator Knox Declares Treaty Is Merely Truce of Versailles

### Prices of Chicago Pork and Other Foodstuffs Take Drop

CHICAGO, Aug. 29.—Chicagoans today saw their efforts against the high cost of living rewarded by a steadily declining price list. With hogs selling at the stockyards here \$3 lower than they were three days ago and \$5 less than the record price reached July 31, practically all other food commodities in local markets showed lower figures. Reason for the slump in living costs was given as a desire by packers to quit killing livestock while housewives continue to use sparingly of fresh meats.

Meantime, farmers continued to ship stock to the Chicago markets, fearing further lowered prices. Consequently, pens were crowded beyond capacity, the effect of the abundance being felt in other lines.

LOS ANGELES, Aug. 29.—Higher prices are being paid here for hogs than in Chicago, according to an official of the Cudahy Packing company today. Although there has been an almost proportionate reduction in prices, a shortage of supply in this locality brings \$18.50 per hundred pounds here as compared with Chicago's top price of \$18.00. The present strike has nothing to do with the increase, the official declared.

In the past month there has been no reduction in beef. There have been no reductions in grocery prices in the last month according to general manager Shurtleff of the Los Angeles Wholesale Grocery company.

### SAN FRANCISCO MAN MURDERED IN HOTEL; SOLDIER IS SOUGHT

SAN FRANCISCO, Aug. 29.—United States Army men united with police this afternoon in a search for Sgt. Arthur Ford, who is wanted in connection with the murder early today of Otto Wunderlich, bartender. Ford, a member of Company E, 18th Infantry, had lost an arm in the overseas service.

SAN FRANCISCO, Aug. 29.—Otto Wunderlich was found murdered today in a Sixth street hotel room by a clerk of the hotel. His throat had been cut with a razor.

He was seen to enter the hotel at an early hour with a one armed man wearing the overseas uniform of a quartermaster sergeant. Both Wunderlich and the soldier had been drinking, the clerk who saw them declares. The clerk heard sounds of a struggle coming from Wunderlich's room. He hurried upstairs to the room. The one armed man passed the clerk on the steps.

The clerk, not realizing that a murder had been committed, allowed the soldier to leave the place. When the clerk entered the room he found Wunderlich lying across the bed dead. Police officials declare that it is only a matter of hours before the murderer will be found, as his identity is well known to them.

"I have had a quarrel with this fellow, but he is too handy with a bottle. I'm going up now to get him," the soldier is said to have remarked before he went up to Wunderlich's room. Wunderlich was killed with his own razor. S. J. O'Brien, night clerk, who heard his cry, ran to his room to find him in the hall clapping his breast. He staggered and fell dead at O'Brien's feet.

Before he fell, Wunderlich said: "I want my mother to have all my things," and added, "I met him in the park."

He was dressed in his pajamas. Wunderlich and the soldier entered the hotel at 1 a. m. Wunderlich remarked the soldier was his friend, and they went upstairs. At about three o'clock the soldier left the hotel. He is said to have made the quoted remark in a restaurant. He then returned to the hotel, going to Wunderlich's room.

O'Brien was accompanied by Frank Walsh when he ran to investigate.

### SEVEN GOVERNORS TO CONFER WITH WILSON

WASHINGTON, Aug. 29.—Governors of seven states were to confer today with President Wilson to plan state co-operation in the Federal government's efforts to cut the cost of living. The governors are Gardner, Missouri; Stewart, Montana; Cooper, South Carolina; Spruille, Pennsylvania; Miliken, Maine; Campbell, Arizona, and Burnquist of Minnesota.

### CROWD ATTACKS CAR CREW WHEN WOMAN STRUCK AND KILLED

LOS ANGELES, Aug. 29.—Mrs. F. W. Lowe, 55, of Milwaukee, was killed today when struck by an inbound South Pasadena car of the P. E. company in the northern part of the city. Motorman J. Johnson and conductor F. H. Schiller, strikebreakers, were severely beaten by an enraged crowd of forty men and boys who witnessed the accident.

Mrs. Lowe died a few minutes after being struck. Johnson said after giving ample warning he placed the emergency brakes on in a desperate attempt to stop the car, but Mrs. Lowe stepped in front of it and was struck by the front step.

A riot call was sent to police headquarters and officers arrived on the scene just in time to prevent the crowd from seriously injuring the crew. The crowd was dispersed.

### CARMEL FOLKS WILL ENTERTAIN SAILORS

MONTEREY, Aug. 29.—Carmel's colony of artists and authors will be hosts and hostesses to men of the Pacific fleet tonight, when a special outdoor play will be given at their Forest Theater at Carmel. Several hundred men will take the scenic drive to Carmel, which will afford them chance to see two of the oldest California missions. A picnic supper will be given at Carmel.

There is a boxing tournament this afternoon and dancing this evening.

### PRETTY FILM ACTRESS MAY LOSE HER GOWNS

LOS ANGELES, Aug. 29.—Jane O'Rourke, a pretty moving picture star, may lose her pretty gowns, seal-skin coat, sable scarf, mahogany piano and motor hat and coat, if the Western Land Company has its way. She was named yesterday as defendant in a suit to foreclose a chattel mortgage. It is alleged that the young woman made a promissory note for \$981, due in ninety days, to the plaintiff company on February 11 of this year, and that she has failed to pay it, plus the 12 per cent per year interest named.

It is alleged that the defendant gave her clothes, mentioned above, as security for the note.

### LEGISLATION THREAT CUTTING MEAT PRICES

WASHINGTON, Aug. 29.—Agitation for passage of legislation to regulate meat packers has brought down prices, former Governor E. M. Ammons of Colorado said in testifying before the Senate Agricultural Committee. Although opposing the Kenyon and Kendrick bills, Ammons admitted on questioning that consumers are getting the benefit of reduced prices now. Ammons said that the producers were suffering as a result, however.

## CONFERENCE OF GOMPERS AND WILSON BEING HELD

Labor Federation Head Asks For Appointment That He May Go Over Whole Strike Situation With President

WASHINGTON, Aug. 29.—Samuel Gompers, president of the American Federation of Labor, accompanied by the executive council went into conference at 3 p. m. today with President Wilson.

By FRED S. FERGUSON (United Press Staff Correspondent)

WASHINGTON, Aug. 29.—Samuel Gompers, president of the American Federation of Labor, today asked for an appointment with President Wilson, it was learned.

In the absence of any announcement it was assumed that Gompers wished to go over the whole present labor situation with the president.

It was regarded as probable that Gompers might ask the president to appeal to heads of the steel corporation to meet the committee representing its organized employees. Judge Elbert Gary, steel corporation head, has refused to meet this committee so far.

Government To Act. Director General Hines' telegrams last night to coast railway administration officials and brotherhoods, giving tomorrow as the date to end the Pacific coast strike voluntarily, clearly showed the government is ready to invoke the law and take extreme measures to prevent strikes on the railroads, leaders here said.

Director General Hines' message was sent to the Pacific coast, not only with the approval of President Wilson, but with the approval of Warren S. Stone of the Brotherhood of Locomotive Engineers. Gompers will present the steel situation to the president, it was definitely learned.

## BULLETINS

NEW YORK, Aug. 29.—Fifteen cars of oranges sold. No lemons sold. Orange market unchanged. Averages ranged from \$2.75 to \$7.05. Highest price, 37 boxes Senator, \$7.05. Weather fair; 8 a. m., temperature 62.

SAN FRANCISCO, Aug. 29.—The battleship Oregon, which will be the reviewing stand of Secretary Daniels when he reviews the Pacific fleet, entered the Golden Gate today.

WASHINGTON, Aug. 29.—The Senate Foreign Relations Committee today amended the peace treaty to provide that the United States shall have as many votes in the League of Nations assembly as the British Empire. Under the covenant, Great Britain has six votes, while the United States has but one.

### PITTSBURGH ENJOYING NORMAL CAR SERVICE

PITTSBURGH, Pa., Aug. 29.—Normal electric car service was resumed here at 5 o'clock this morning, the striking car men having voted to accept the war labor board's award of an increase of six cents an hour. The men have returned to work under protest, after two weeks of striking, and will continue their fight for an additional increase of six cents and hour.

### Prince of Wales Inspecting Troops at Nearly All Stops

### Briton Refuses to Take Part In Any Private Affairs On His Trip

WINNIPEG, Man., Aug. 29.—The Prince of Wales is being honored by thousands at every stop he makes on his trip through Canada. He has just arrived from Toronto, where the crowds were so great that at times it was difficult to get his car through the streets.

The prince is appearing in public only and is inspecting troops at nearly every stop. An attempt was made here to arrange for some private affairs in the prince's honor, but he would have none of it, and telegraphed here that he would appear only at public affairs and meet the whole people, rather than a selected few. A lengthy program has been arranged for the royal visitor.

### HUNGARY WILL RISE DECLARES ARCHDUKE

VIENNA, Aug. 29.—Archduke Joseph, recently ousted as head of the Hungarian government, has re-entered the political arena. Addressing several deputations of citizens in Budapest yesterday, he declared Hungary would "rise from her grave," and again would occupy her former position in international affairs.

Stephan Friedrich, premier under Joseph, is engaged now in establishing a new government, in which he retains the premiership.

### SCHOOL TEACHER WITH TWO CHILDREN SOUGHT

BRIDGEPORT, Cal., Aug. 29.—The Mono Lake school district wants a school teacher with two children of school age.

The district has only two bona fide school children and the county, under the state laws, cannot hire a teacher for a district with less than four school children.

### NEW INSTRUCTIONS TO SHOPMEN SENT UNIONS

WASHINGTON, Aug. 29.—It was learned today that the railway shopmen's executive committee has sent to all local unions new instructions regarding their vote, and asked that all voting be deferred until the new instructions have been received.

In the telegram the committee advised that an order for a strike on September 2d was officially rescinded. It was explained today that any balloting already done will have to be done over.

The telegraphic appeal laid special emphasis on President Wilson's efforts on behalf of the shopmen.

### CONDITIONS IN ASIA MINOR DISTRESSING, REPORTS C. R. CRANE

PARIS, Aug. 29.—The conditions throughout Asia Minor are "most pathetic," Charles R. Crane, head of the American mission to the Near East, declared today upon his return from Constantinople.

"During three months," Crane said, "we visited 300 towns and villages and received 1600 delegations, some of which had spent days in crossing the deserts and plains. All of them were looking to America for assistance."

Despite the Moslem reserve, the delegations without exception unbent themselves to us, indicating that all the hopes and ambitions of all these peoples are tied up in the belief that the United States will help them."

Crane said the mission did not have time to visit Armenia, but reports indicated that conditions there were "extremely distressing."

### PRESERVE CALIFORNIA MISSIONS IS URGED

SAN FRANCISCO, Aug. 29.—"Preserve California's Franciscan Missions" is the slogan of pioneers, statesmen and public spirited Californians, gathered here today to devise means of carrying out a preservation program. Governor Stephens is active in the project, and has suggested a state bond issue to cover the cost.

All Native Son and Native Daughter organizations, pioneer associations and historical societies have been asked to have members at today's session.

### 20 DEAD, 40 MISSING IN BARGE EXPLOSION

ARCHANGEL, Aug. 29.—Twenty men were killed and forty are missing, it was reported today, as a result of the explosion of an ammunition barge which destroyed the British monitor Glow Worm.

### PAY \$6000 FINE FOR EVADING LIQUOR LAW

SANTA FE, Aug. 29.—A fine of \$6000 was imposed here in the United States District Court upon Bonnie Bros. of Louisville. The defendants pleaded guilty to the first six of sixty-three counts of an indictment charging violations of the Reed amendment by shipping liquor into New Mexico. The remaining fifty-seven counts will be dismissed.

## SOUTHLAND AWAITING DECISION OF MEN

Unprecedented Controversy On Between Employes and Officials

### SURLY SILENCE KEPT BY STRIKERS IN L. A.

M. E. Montgomery Says He Is Hopeful Jobs Will Be Resumed Soon

LOS ANGELES, Aug. 29.—With food and traffic conditions of surrounding towns depending on the decision of steam line engineers, firemen and trainmen in Los Angeles, as to whether they will obey orders of brotherhood chiefs to return to work tomorrow, this city and Southern California today waited anxiously the developments in the local situation.

An unprecedented controversy is on between brotherhood officials and the membership at large, it was learned today. M. E. Montgomery, assistant grand chief of the Brotherhood of Engineers, is endeavoring to persuade the men to go back to their jobs. He stated early today that he was hopeful that the engineers would report for duty some time today.

His announcement, however, was met with surly silence by hundreds of engineers, firemen and trainmen.

Strikers at the labor temple predicted that the employes would defy the union officials.

### Yardmen In San Francisco Are Back at Work Today

SAN FRANCISCO, Aug. 29.—San Francisco yardmen returned to work at 8 a. m. today, clearing the bay district of railroad strike troubles. Although railroad men at Los Angeles continued to strike in sympathy with the Pacific Electric strikers, the prediction was heard here that they would end the strike before nightfall.

It was believed the ultimatums of Rail Director Hines and of the brotherhood chiefs, naming Saturday morning as the time when the government, aided by the brotherhoods, would operate the trains, would have the desired results.

The first break came at Los Angeles late yesterday when half a score of engineers and conductors of the Santa Fe reported for duty.

The strike is a move in sympathy with Pacific Electric employes. The P. E. is not under government control and the strikers assert its employes have not been accorded as fair treatment as those on roads run by the government.

The quick termination of the strike in this section saved a big crop of perishable fruits. The embargo placed by the Southern Pacific over their territory has been gradually lifted until now freight is being accepted for territory half way down the San Joaquin valley towards Los Angeles.

Fresno railroad employes were expected today to follow the local lead and end the strike.

Employes here, who, in a mass meeting decided to wire Washington a request that the Pacific Electric be taken over, have received no reply to their telegram.

### Local Interests Urge Quick Action By President Wilson

Business men of Santa Ana, through the M. and M. and Chamber of Commerce, and of the county, through the Associated Chambers of Commerce, today voiced their protest against a continuation of the strike, in a telegram forwarded today to President Wilson by Secretary J. C. McInerney. The up of business enterprises by the action of the men on strike is not

## A Fortune's Foundation

A fortune's foundation is laid in the days of business training. Start right, keep at it, and the result is certain.

We help lay the foundation for future fortune—train you to work accurately, rapidly, understandingly in all business branches.

Then we help you to put in the corner stone of your success by placing you in the best position you are competent to fill; after which we stand constantly behind you while you faithfully work your way toward the top.

The call for really good stenographers and bookkeepers is never supplied. We turn away calls for help every month. Even in another column of this paper because we had no student ready to go out.

Every graduate of this school has a good position and many who have not graduated are holding such positions as we were able to recommend them for. Our students command the highest salaries and gain the highest eminence.

One young woman who graduated here a few years ago is today office manager for a leading packing company here at a salary of \$125 per month; another man recently went direct from our bookkeeping department before graduating to a position as bookkeeper for which we recommended him at a salary of \$150 per month. Can graduates of long course colleges after four to six years' study show a better beginning record?

You can make the same success in business that scores of our graduates are making every day.

Let us start you, NOW. Our new, illustrated catalogue, just off the press, will tell you how we lay the foundation.

It is free. Ask for it. Address

*J. W. McCormac*

President

## STRIKE DECISION IS AWAITED BY SOUTHLAND

Trainmen Hold Surly Silence But Some Say Leaders Will Be Defied

(Continued from page one.)

approved by the local men, the sugar beet industry being particularly hard hit at this time. The Santa Ana plant is ready to operate but the season run has been delayed because of the tie up.

Following is the telegram:

To His Excellency,  
The President of the United States,  
Washington, D. C.

The undersigned organizations, representing directly a large part of Orange county, California, and indirectly the sentiment of an overwhelming proportion of the entire community, believe the time has come for you to deal with the steam railroad strike problem in California. The marketing of food products, the manufacture of beet sugar and other agricultural and industrial pursuits are being interfered with at tremendous cost to the producer and the consumer and resulting in loss of foodstuffs and property of material value in the campaign against the high cost of living.

SANTA ANA CHAMBER OF COMMERCE

ORANGE COUNTY ASSOCIATED CHAMBERS OF COMMERCE.

Trainmen's Vice President Confers With Strike Heads

SAN BERNARDINO, Aug. 29.—A. F. Whitney, senior vice president of the Brotherhood of Railway Trainmen, arrived here at 11 o'clock this morning and immediately went into conference with strike leaders of this city.

It is probable the strike, so far as San Bernardino is concerned, will end today, although at noon no return to work had taken place.

"The men here and at other points on the Santa Fe, Southern Pacific and Salt Lake lines have made an error," declared Whitney. "They are ordered to return to work immediately by all four international officers."

## NEGRO PREACHERS STUDY PROBLEMS

After three weeks' instruction in various phases of rural betterment, 125 negro preachers from rural districts in sixteen states have returned to their homes prepared to transmit what they have learned to the members of their congregations. Under the auspices of Gammon Theological Seminary and the Board of Home Missions of the Methodist Episcopal Church, South, a corps of special instructors from Tuskegee Institute representing the extension service of the United States Department of Agriculture, the Alabama Polytechnic Institute and the Tuskegee Institute gave practical demonstrations in agricultural, domestic and hygienic advancement.

According to the extension workers, the preacher is the best medium yet disclosed for reaching effectively the country negro. Therefore the preachers were taught the approved methods of sanitation and improvement of the home, church, and school surroundings. They also learned much about soils and their productive power; how to build good chicken houses; and the weaving of rag rugs, shuck mats, and chair bottoms.

## SPICED VINEGAR GIVES GOOD PICKLE FLAVOR

Spiced vinegar is used in making pickles, for favoring gravies, potato salad, and similar dishes. For pickling it is especially valuable, as the flavor from spiced vinegar is the same all through the pickles, while if pepper, cloves, and dill are added directly to the pickles the flavor is more concentrated at the places where these spices are put. The herbs from which the spiced vinegar is made may be used as a garnish by mixing them in the pickle.

An excellent spiced vinegar is made by filling a wide-mouthed bottle or a fruit jar to within two inches of the top with spiced plants of different kinds, such as slices of horse-radish and onions, umbels of dill, ripe seed of white mustard and celery, green seed of nasturtiums, fine stems and leaves of tarragon, basil, and sweet marjoram. A pod of red pepper may also be added. The bottle or jar is then filled with vinegar heated to 160 degrees Fahrenheit, corked or sealed and left for about three weeks. At the end of the three weeks, strain the vinegar and fill in small bottles. Cork and seal with melted paraffin or sealing wax.

That Boy Of Yours will grow in mind and muscle if you feed him right.

Grape-Nuts for Breakfast!

"There's a Reason"

## Dyed Lace Popular This Season, Also Fringe Gowns

BY MARGARET ROHE

NEW YORK, Aug. 29.—That immortal phrase of Barnaby Rudge's raven, "Never say die," would make little bit nowadays in the fashionable world. This season everyone's ravin' instead. "You simply must dye," at least when it is a question of lace.

Not only the lovely lace net and shawl lace gowns and frocks are popular in black but the all-lace gown in pastel shades and even vivid tints are the last gasp of a dying season and a dying fashion.

Even the real laces of hand-made lineage have not escaped the dyers' dire pot and file, cluny and torchon insets on frocks of linen, taffeta and crepe de chine are all dyed up to match exactly their accompanying material.

Indeed, the combining of linen lace with a silken fabric such as crepe de chine or taffeta is one of the latest Paris fads and when the lace does not exactly match the gown shade in hue it is done in a most striking contrasting tone.

For example, a favorite combination of color is a Natter blue taffeta trimmed in bands of heavy jonquil yellow lace.

An all grey taffeta with grey filet is a charming cloud effect that needs no silver lining, but relies wholly on a flesh toned satin one instead.

In the all over lace and lace and net frocks of fluffy three-tiered ruffled skirts and flowing elbow sleeves or else above the elbow wee ones, sort of 2.75 per cent sleeves, the grey dye shades the shadow lace to a veritable shadowy hue. A lovely orchid dye makes old lace and lavender one and the same and is one of the most exquisitely lovely colorings for these dyed lace gowns.

Oyster white, cafe au lait, biscuit, apricot, peach, citron and salmon are all delicatessen tints that appeal to Fashions' jaded sartorial appetite as delectable hues for lacy frocks. These neutral tones and pastel shades are usually relieved with a vivid streak of contrasting color in the form of a narrow picot edged ribbon knotted with flowing ends about the waist.

These dangling ends of narrow ribbons are by no means the end of such ends, however, for we are to have no end of ends again in a return of fringe even more virulent than our first attack of it. We are to be simply all fringed about with fringe. Entire gowns made of narrow ribbon fringe over satin slips have the ends held in leash only at the neck line, belt and arm holes while the floating ends sway free and unrestrained to form the skirt and sleeves.

These fringe dresses formed of knotted silk fringe are stunning, but a bit startling, of black fringe over a white satin slip or vice versa.

They are sketchy to say the least and seem to call loudly for a ukulele or polka.

As a close cousin to fringe is the frayed finish to taffeta frocks. Bands of the taffeta raveled on both edges and gathered through the middle like ruching makes a trimming not unlike the feather fin trimming that feathers our best.

So be not afraid to don a frayed frock. It is a sure winner in fashion's affray.

## FREAK BIDDY IS THE WONDER OF HER STATE

With a record of 151 eggs in one month and 77 of these produced in a single week, a 3-year-old White Rock hen owned by Gus Rhodes, prosperous La Cross Valley farmer, living one mile east of West Salem, Wis., claims the egg-laying championship of the world.

The first questioning of the record of the hen's laying performance during the month of May, when it was kept by Mrs. Rhodes, ceases when some of the skeptics on the premises saw the hen lay 16 eggs in a period of ten hours.

Her record is: May 3, four eggs; May 4, three; May 5, four; May 6, five; May 7, six; May 8, four; May 9, three.

The hen laid no more eggs until May 20, when she started in with five. Her record of month continues: May 20, five; May 21, none; May 22, six; May 23, four; May 24, seven; May 25, four; May 26, nine; May 27, nine; May 28, eleven; May 29, ten; May 30, fourteen; May 31, fourteen; June 1, one; June 2, sixteen; June 3, eleven; June 4, one.

"J. H. Benson came out from La-Crosse early Sunday and watched the hen constantly all day," said Rhodes. "There were hundreds of persons here during the day, and I suppose the excitement had its effect; for she laid only one egg. Mr. Benson decided to stay over night and watch the hen another day. And he certainly watched her. When the hen clambered into the nest finally, Monday morning, Mr. Benson sat down in a rocking chair in the barn near by and never took his eyes off the nest until the chicken finally arose four hours later and hopped down onto the barn floor.

"Mr. Benson found the hen had laid in this one sitting thirteen eggs. Later in the day she laid three more eggs, but Benson was gone."

This White Rock is a large bird, but not of unusual size. She is fat and docile, a voracious eater when off the nest and consumes a large amount of grain. Mrs. Rhodes believes the hen is three years old.

The eggs laid by this hen are of normal size, have full hard shells and single yolks. A number of the eggs have been used for setting purposes under other hens and all have been found fertile.—The Onley (Ill.) Advocate.

The Man for the Place  
The railway board had met to consider the case of old Tom Jones, who in a train accident had become deaf.

"Well," said a director, "old Tom has been with us a long time now, and we want to find him a new job. What do you suggest?"

"Put him in charge of the complaints department," said the chairman.—Blighty, London.

## WILSON TO VISIT 21 STATES ON JOURNEY

Route Will Be 10,000 Miles Long and Trip Will Last 27 Days

WASHINGTON, Aug. 29.—The itinerary of President Wilson's tour on behalf of the peace treaty officially given out today calls for visits in many cities in 21 states.

The route he will follow will cover approximately 10,000 miles and the trip will last 27 days.

The president will leave Washington next Wednesday evening and will return Sept. 30. He will go west as far as Kansas City, north into Nebraska to the Dakotas, Minnesota and Montana and thence to the Pacific coast.

The president will leave the capital much relieved at the turn national problems have taken in the past few days. He is said to be particularly pleased over the stand of railroad shophmen leaders, who have urged the men to defer action for at least 90 days and with the action of brotherhood chiefs in siding with the railroad administration in the strike dispute on the Pacific coast. He takes these things as an index of labor's attitude.

The president is said also to feel that national labor leaders, now in conference here with Samuel Gompers, will throw their influence in favor of his plan for an industrial truce and act as a balance against unauthorized strikes and radicalism.

The president's car will travel as a special section of regularly scheduled trains.

### HOPEFUL

"Has Professor Tripps found a name for his new dance step?"  
"No, but he visits the 'zoo' every day."

"What does he do that for?"  
"He hopes by making a close study of animals and their peculiarities to hit on a name that will sweep the country."—Birmingham Age-Herald.

## THE WALNUT'S FUTURE

Orange county will soon commence the harvest of a 10,000-ton walnut crop. Just how much money that is going to bring into Orange county, none can say at this time, for the price has not been fixed at which the walnuts will be offered. We do know, however, that the crop is the biggest in the history of the county, and we are assured that the price is going to be good.

The walnut has had a large part in the development of Orange county. And the walnut, too, has developed. The old-time hardshell had its day, and the industry has brought forth not only the softshell, but the more highly developed budded walnut. The industry has always had connected with it men of energy and brains. Foresight and devotion to duty mark the conduct of its leaders. The strength of the association is today the strength of the industry. Whether or not the walnut groves of today are to continue profitable rests more upon the stability of the association than upon anything else.

Fortunately, the necessity of standing by the association is recognized by such a large proportion of the growers that there is no doubt as to the future of the walnut association. It is here to stay, and because it is here to stay, the walnut industry's future is upon a stable basis. The success of the association of the future, however, is to be measured by the proportion of the acreage signed up for control by the association. The industry is going to be a more valuable industry during the next ten years if during that period the association controls eighty-five or ninety percent of the acreage than it can be if it controls only seventy-five per cent of the acreage. Evidently it is the plain duty of every grower of walnuts to put in his acreage with his neighbors' and, all working together, make the industry for the years to come a bigger and a better industry.

## NEED OF HARBORS

Those hundreds of people who have had faith in the future of Newport Harbor have found much encouragement in things done and said as a result of the arrival of the fleet upon the Pacific Coast. There is no longer any question but what any feasible harbor project on the Pacific Coast will be given close scrutiny and appropriations ought to be easier to get now than they have been hitherto. The Pasadena Star-News in discussing the general harbor situation on the Pacific Coast says:

Extensive betterments are needed in harbors on the Pacific Coast, to accommodate the Pacific fleet and to afford adequate port room for the great merchant navy which the United States is destined to have. Secretary Daniels is strongly advocating these betterments. Rear Admiral Rodman, whenever he may have opportunity to do so in official reports, doubtless will be equally emphatic in pointing out the need of improvements.

To overcome the provincialism that seems to prevail in some parts of the country; to convince Congress that the Pacific West is a great, live, integral, progressive part of the Nation, it is in order for members of Congress from the Pacific states; for civic bodies; for municipal, county and state officials and for the press of the Pacific Coast to keep before Congress the harbor improvement needs of this section. Coming of the fleet means half the battle for appropriations by Congress. With one-half the navy's strength in these waters, Congress cannot escape or evade the logic of the situation—port facilities must be made adequate to accommodate these vessels and naval bases must be enlarged and equipped accordingly.

## BUILDING AIRCRAFT

Recent aircraft developments in England and France indicate nothing less than a plan to establish an international air police to keep an eye on Germany and enforce the treaty.

It may be recalled that on one or two occasions after the signing of the armistice, when the people of Berlin grew especially truculent, they were quieted by the appearance of a big British dirigible war balloon which cruised around ominously and then flew away.

The British government has gone

ahead manufacturing those big fellows. The transatlantic flight of the R-34 was probably a mere incident in the program of creating a fleet of those monsters and impressing Germany with their power. It is said that a blimp four times as large as the R-34 is now building in England. Huge airplanes of the bombing type are also being rushed to completion. France is doing nothing so spectacular, but has made almost as large an appropriation for aircraft as Great Britain has, evidently with the same purpose in mind.

There is great need of clean, wholesome, interesting moving pictures just as there is need of such books and such plays. The way to counteract evil is by the positive method—making the things that are good, attractive and interesting so that people will become absorbed in them and have no time for evil. After all possible care has been exercised, the real crux of the matter is in the attitude of the onlooker. And reforming the attitude of the onlooker must begin, like charity, at home.

## Enforcing Prohibition

Riverside Press  
Congress has been asked to provide a fund for enforcement of the Federal prohibition law. It is a small sum—an indeterminate part of the \$1,500,000 request for use primarily against profiteers and food-hoarders. It is wanted by the Department of Justice to finance temporary activities against prohibition infringements. If a bill now pending in Congress goes through, permanent enforcement will be transferred to a commissioner under the authority of the Treasury Department.

It is certainly time that some definite, systematic beginning was made in the application of this law. So far, the prohibition regime inaugurated July 1 has been upheld rather by public sentiment and voluntary acquiescence of the liquor dealers than by legal action. But this halcyon situation will not last long without a positive campaign to enforce it. Already there are indications nearly everywhere of a disregard of the law which bodes ill for the future.

This is the most delicate period in the history of prohibition. If this policy is not established now by drastic and consistent enforcement, it will become a joke, disappointing all the friends of prohibition and possibly accomplishing no benefit even for the liquor interests and their friends.

Law is law, and should be obeyed or repealed.

It is also essential that there be a thorough test made of the results of prohibition, for the information of everybody concerned and the guidance of the nation in the future. A dry law half enforced will prove nothing, one way or the other.

Let us have the utmost possible degree of obedience to this war-time law, and to the constitutional amendment that supplants it next January. Then the public will find out for sure whether or not prohibition is the national blessing it was expected to be, and the question will be settled once for all.

For Pershing  
Pasadena Star-News  
It will be gracious and fitting on the part of Congress to hasten legislation that will make General Pershing a full general of the army, with this high rank conferred upon him permanently. Sentiment both in Congress and outside is favorable to this recognition of the great services rendered by General Pershing as commander-in-chief of the American Expeditionary Forces. If the honor is to be bestowed—and assuredly it should be—it were well to give it promptly and with the spontaneity of spirit that makes any honor doubly prized.

Besides his skillful achievements and his conspicuous merits as a military man, General Pershing has created a splendid impression everywhere by his gentlemanly, chivalrous qualities as a man. He is becomingly modest—a consistent doer, and not a vaunting limelighter. The American people admire this in any man—whether in military or civilian service, or in private life.

## Pledge to France

Long Beach Press  
"Such a treaty is clearly warranted by international law and usage and is, therefore, within the scope of the treaty-making power of the United States," is the opinion of the Senate Judiciary sub-committee with reference to the proposed compact whereby the United States would go to the aid of France in case of unprovoked attack by Germany. The sub-committee holds that this defensive agreement not only is constitutional, but is advisable, in order that France may be protected and be permitted to recuperate from the ravages of the war and become a barrier to the lust of Germany for world domination. This sub-committee is of the opinion, with reference to Germany, that "nothing but force is likely to restrain her from seeking world domination at the earliest opportunity."

This proposed covenant is of temporary nature. It does not involve the United States in a permanent, outright offensive and defensive political alliance.

If the United States refused to enter into this temporary arrangement, it might bring disaster upon itself. For if France were left exposed to attack and subjugation by Germany, this Nation would be next to feel the wrath of the Teutons. In aiding to protect France the United States will be helping to protect itself as well.

Sarah's mistress became very dissatisfied with the number of times one man came to see her maid, and calling the woman into the living-room one evening said: "Sarah, when I engaged you, you told me you had no men friends. Now whenever I come into the kitchen I find the same man there." "Bress yo' ma'am," smiled Sarah. "dat niggah ain't no fren' ob mine." "No friend?" exclaimed Mrs. Manning. "Then who is he?" "He's ma husband."

## Let the Housewife "Can" Him

## You Can't Afford to Lag

By W. L. Brownell

Every day, nowadays, you will hear people draw long breaths and say: "Well, the war is over, now we can let up and take it easy." It all depends, of course, upon what you consider easy. Some people take the easiest kind of a life in the hardest kind of a way, but if you consider life will be easy merely by attempting to shake off responsibility, you have lost your gas-mask, and the poisonous fumes of cowardice will soon render you a despised no-account, a regular by-gum down-and-out-er. The principal reason why many people are old in body at sixty or seventy is because they have lost interest in the vital things of life, because they sigh and say: "I have done my part, I have lived my life, and now I am going to quit and just sit around and wait for the last long roll." All right, if you just want to be a sinner and a sinner, go to it; but not for us. Up to our last conscious moment on this earth we want to be in the thick of the fight, doing our share to help solve the world's big problems and little problems, and our constant prayer is:

"Oh, Lord, don't let us sag!"

## Worth While Verses

### THE SINGING TREE

There is a stately tree that stands  
Amidst the sloping pasture lands  
Where dew-lapped cattle stray and browse;  
When day unfolds or night expands  
There runs a music through its boughs.

When up the northern skies are rolled  
The pale auroras, fold on fold,  
Like banners limned with strange device,  
It chants the sagas of the cold,  
The crystal lyrics of the ice.

When swallows come on soaring wing,  
And tanagers and bluebirds bring  
Omens of violet and rose,  
It flings the flute note of the spring  
Down every wand'ring wind that blows.

When softlier slip the shrunken streams,  
And sultrily the bee balm gleams,  
And no harsh voice the twilight mars,  
It breathes the summer's popped dreams  
Unto the leaning, listening stars.

And when along each woodland lane  
There is the driven drift of rain,  
And fall of frosted leaves and sere,  
It sounds the autumn's plaintive strain,  
The requiem of the fading year.

Through all the shifting seasons long,  
Now sad or sweet, now low or strong,  
It lifts its ceaseless melody;  
It seems the very soul of song,  
And so I love the Singing Tree!

—Clinton Scollard.

## The Right Clothes for Men and Young Fellows

The conservative man will find here the suit that fits his ideas and his personality—that harmonizes with his station in life and conservative principles and in the variations for his every taste.

Here are clothes for the real young man who wants a cut a little bit more extreme and somewhat snappier styling to his Suits than the older man. And our complete new Fall displays will come up to all of his expectations and demands.

Here are high grade Suits in the very latest styles. The range of colors we are offering is certainly much better than you would expect so early in the season; and all fabrics are real wool.

It's one thing to get a Suit that looks fine when you buy it, but it is quite another matter to select a Suit that will retain its smart style, as long as it lasts. That's the big point about these Suits.

Buoyancy is expressed in every line of these tailored models. They are the products of the best makers and every one is an extraordinary value at its present pricing.

## DREAMS

I know a hill where the heather blooms.  
Where the wind of heaven blows free;  
Where the sky on high is a blue, blue sky.  
Which smiles on a summer sea.  
I know a spot where the sunshine breaks  
On a world that is half asleep;  
Where the sad waves sigh as the day goes by.  
And over the bright sand creep.  
I know a dream which is mine all day.  
And haunts me the long night through;  
It is sky and sea and a wind that is free  
And the sun and the heather and you.  
—Irene Stiles  
(In London Answers).

## Scottish Reunion

The Caledonian Club and Clan Cameron extend an invitation to all Scottish folk to attend their annual picnic and reunion to be held in Eagle Rock Park, Los Angeles, on Labor Day. Features will be Scotch highland dancing, games, bagpipe playing and other forms of amusement. Oscar Ewing, chairman publicity, 121 South Hill street, Los Angeles.

## For the Holidays

The three days' vacation doesn't seem to take as many out of the city as expected. Possibly because the resorts are nearly all very well filled. Mrs. N. L. Galbraith, daughter, Mrs. W. B. Walker, and family came up from Balboa last evening, but are returning today for another week.

Sunday Mr. and Mrs. George Balderston are going to Forest Home for a few days. Mr. and Mrs. J. H. Metzgar, daughters, Evelyn and Eleanor, with Mr. and Mrs. C. L. Cotant and daughter, Mary Elizabeth, are leaving Saturday afternoon to spend the holidays at Idyllwild.

Miss Alice Parker, Robert Parker, Mr. and Mrs. C. R. Sumner and daughter, Evangeline Sumner, are to occupy the Parker cottage at Laguna from Saturday afternoon until Monday evening.

Mrs. Alice Harris will be with her daughter, Mrs. Cora Thompson, at Balboa.

Mrs. Theo. Winbigler will have Mrs. B. F. Morehouse and daughter, Miss Vivian, of Whittier, with her for the week-end.

## Pretty Orange Wedding

One of the prettiest home weddings of the season was solemnized Wednesday evening, August 27, at the home of Mr. and Mrs. George W. Murphy, at 623 East Maple street, Orange, when their daughter, Miss Edna Kathrine Murphy, became the bride of Dr. Carroll Hubert Silvernail of Bridgeport, Nebraska.

The home was beautifully decorated with potted plants and baskets of Cecile Brunner roses.

Preceding the ceremony, Miss Nancy Elder of Santa Ana sweetly sang "I Love You Truly."

At 8:30, as Miss Verna Catherman, cousin of the bride, sounded the first notes of Lohengrin's Wedding March, the bridal party entered by two doors and took their places at one end of the living room, where the impressive marriage service was read by Rev. W. S. MacDougall of the Presbyterian Church of Tustin.

The bride was preceded by her maid of honor, Miss Florence Henderson of Pasadena, who was gowned in apricot georgette, and carried an arm bouquet of pink rose buds.

The beautiful bride entered on the arm of her father, who later gave her into the keeping of the bridegroom. She was never more lovely than in her ruffled frock of white georgette. Her misty veil was fastened to the graceful head with sprays of orange blossoms and she carried a slower bouquet of Bride roses.

The handsome bridegroom was attended by James Ragan of Orange.

After the ceremony, which was witnessed by relatives and intimate friends of Mrs. Silvernail, the bride cut the lovely cake, and dainty refreshments were served by little Misses Alice MacDougall and June Willard, and Howard Murphy, the bride's young brother.

The bride's bouquet with its well known significance, was caught by Mrs. Willard of Tustin.

The going away gown was a becoming tulle of blue tricot with brown accessories.

As Dr. and Mrs. Silvernail left the house, they were met by a band of confetti throwers, who escorted them to the waiting automobile.

They will spend their honeymoon at Catalina and other points of interest, and will make their home at Bridgeport, Neb., where Dr. Silvernail is a successful dentist.

Mrs. Silvernail was a very popular teacher in the Tustin school last year, and has hosts of friends here who wish the young couple a long life of happiness and prosperity.

## Social Attractions

There are a number of very attractive social courtesies in "the planning" for next week and several more are already assured events and are being pleasurably anticipated by the invited guests.

An especially enjoyable one for tomorrow is the luncheon for Mrs. W. W. Anderson to be given by Mrs. John W. McCormac.

Invitations have been issued for an elaborate garden and whist party to be held at the home of Mrs. J. E. Paul of Tustin, Thursday, September fourth. Hostesses are to be Mesdames J. E. Paul, J. E. Gowan and F. W. Slabaugh.

Saturday, September sixth, Mrs. Charles Brown of Tustin, is entertaining for Miss Flossie Zerman, who is soon to become the bride of Alexander Winter of Utah.

The week following will be pretty well taken up with the opening of school and school organizations.

## Close Play Grounds

The summer play grounds, which have been such a joy to many little people and a wonderful relief to busy mothers, are to close tomorrow evening for the summer.

## Eastern Stars Entertained

It is doubtful if there is an organization in town that has better times among its members than the Eastern Star. With many things in common, the association has brought them even closer together, and in all sorts of weather and at any time they are continually planning some new entertainment—if not for themselves, for the benefit of the association.

Last evening Mr. and Mrs. L. M. Forcey and Dr. and Mrs. C. V. Doty, assisted by Mr. and Mrs. Marshall Keeler, were hostesses at wiener-bake and watermelon feast at Newport Beach, where Mr. and Mrs. Forcey, with their children, have been staying for some time.

A number of the ladies went down in the afternoon and were joined by their husbands later in the evening, when a huge bonfire was built, the wieners and marshmallows roasted and all the delicacies of such a feast enjoyed.

Dancing at the pavilion closed an exceptionally pleasant evening.

The invited guests were: Messrs. and Mesdames, W. L. McCleery, C. D. Brown, H. T. Trueblood, Walter Cornelius, Mark Lacy, A. H. Paterson, Fred Rowland, Dr. and Mrs. Rowland, W. V. Whitson, W. W. Cleverger, Marshall Keeler, E. T. Mateer, A. N. Zerman, Sherman Evans, F. H. Cloyes, P. L. Tople, J. W. McCormac, W. D. Barker, Mrs. Mary Whitson, Mrs. G. A. Whidden, Misses Hattie Whidden, Romona Cleverger, Flossie Zerman, Martha Whitson, Daisy Williams and Crose.

A watermelon feast was held following the regular business session of the Fraternal Brotherhood last evening. There are no special plans under consideration at the present, so a large part of the evenings are spent in a social and fraternal way.

Tables Turned  
An informal company of friends gathered at the home of Mr. and Mrs. E. O. McClure last evening for a surprise upon Mr. Outlander. When the tables were turned and the surprise on them couldn't resist the temptation to "get even," so they went on to the home of Mr. and Mrs. Harry Moss, who were entirely unprepared for the late visitors, who found solace for their vengeance in routing them out of bed.

**BORN**  
KIDD—In Santa Ana, August 24, 1919, to Mr. and Mrs. George W. Kidd, 1021 West Second street, a daughter.

**On the Same Principle**  
"Mother, what color are my eyes?" asked Clara.  
"They are gray, dear."  
"Mother, could the lady that makes your gray hair brown, color by eyes?"

**GIRLS! USE LEMONS FOR SUNBURN, TAN**  
Try it! Make this lemon lotion to whiten your tanned or freckled skin.  
Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion whitener, at very, very small cost.  
Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands and see how quickly the freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

## PERSONALS

James Magill, Henry Pohndorf and Henry Klaustermeyer leave Sunday for Portland, Oregon, for a three weeks' hunting trip.

Mrs. C. A. Hamaker and daughter, Edna, were down from Los Angeles today packing their household goods for removal to Los Angeles. Mr. Hamaker will join his family in the Angel City later.

Mrs. M. Fahr returned to her home yesterday in Los Angeles, after visiting here with her daughter, Mrs. O. K. Forgy.

Mrs. Victor Langford and her sister, Miss Marguerite West, will return tomorrow from a two months' stay at Shasta Springs.

Mr. and Mrs. C. S. Kendall will go to Oakland in a few days to visit their son, Herbert Kendall, and wife. They will be accompanied by Mrs. Addie Collins.

## City and County Briefs

One of the rooms at the Santa Ana Hospital is being remodeled into an operating room. When completed, there will be three well-equipped operating rooms at the institution. The new room is being modernized in every respect.

Friends and relatives of Lieut. Herbert Kendall, son of Mr. and Mrs. C. S. Kendall of Santa Ana, are greatly pleased with reports received showing progress toward recovery made by Lieut. Kendall. Lieut. Kendall and his wife are living at the Whittier Apartments, San Francisco, while he is receiving treatments at Letterman Hospital. When he reached home from overseas in June he was unable to use the leg struck by a bullet in an aero flight. He now walks well without a crutch and has gained a good many pounds in weight.

County Treasurer J. C. Joplin, who has his left shoulder dislocated in a runaway several weeks ago, has about recovered the full use of his arm.

The following letters remain unclaimed at the postoffice at Santa Ana, Cal., for the week ending Aug. 30, 1919:

Foreign: Jose M. Carrasco, Maria Lujan Cavaero, Pedro Labin, Francisco Negrete, Basilio Segura, Trinidad Sanchez, Primitivo Ybarra, Francisco Victor, Mrs. Christy Seales.

"The Standard Bank of Orange"

County "is the name of Fullerton's latest financial institution, according to S. W. Smith, cashier and manager, who will file the charter at the county seat. The new bank will occupy the Masonic building at the corner of Spadra and Amerige avenues and is expected to open for business within sixty days. Carpenters and cement men are busy remodeling the building and putting in a vault. This bank Watermelon Feat.

"What will happen if the pretty widow spurns the judge who is making love to her?"

"He can fine her for contempt of court."

Stockton is considering a campaign to secure the College of the Pacific, which must move from its present site in San Jose because of the spread of railroad yards.

Ex-President William H. Taft, delights to tell of one of his maiden speeches in which he was anything but a hero. The speaker was on that easiest of tasks, attacking the government, when the heckler cried out: "You're wrong, sir!"

Taft looked angry, but continued on the warpath. "You're wrong, sir!" again rang out. Angriest of all, addressing the persistent interrupter, Taft cried: "Look here, I could tell this man something that would make his hair stand on end."

"You're wrong again, sir!" came from the critic, as amid the roars of the crowd he stood up and removed his hat. His head was as bald as a billiard ball—Argonaut.

His Privilege  
"What will happen if the pretty widow spurns the judge who is making love to her?"

"He can fine her for contempt of court."

Stockton is considering a campaign to secure the College of the Pacific, which must move from its present site in San Jose because of the spread of railroad yards.

If you are suffering from skin trouble and have tried various treatments without success don't be discouraged.

# Resinol

Ointment and Resinol Soap bring speedy relief from eczema and other itching or embarrassing eruptions, and usually succeed in making the skin clear and healthy again.

Your druggist carries Resinol Ointment and Resinol Soap. Try them!

# Hair Restored

to its natural color by a New Vegetable Preparation which will color gray, faded or bleached hair to its original or any desired shade. Leaves the hair soft and glossy and is unaffected by shampooing. Does not stain the scalp or rub off.

**Mrs. Cora B. Cavins**  
116 E. 4th St.

# Wagons and Tricycles

We have just received a good stock of Express Wagons, Coaster Wagons, Velocipedes, Hand Carts and other juvenile wheel goods. We carry the "Pioneer" line which is the best we have ever found.

**Santa Ana Hdwe. Co.**  
108 West Fourth Street  
Near the Banks.

I am prepared to handle your ranch horses.

**SHOEING-CLIPPING**

**JOE MILLER**  
Phone 351.  
207 French Street, Santa Ana.

**SODIUM FLUORIDE EFFECTIVE**

The free use of an effective lice powder in poultry growing is always advisable. A dust bath, consisting of roa dust and wood ashes, is essential in ridding fowls of lice. Sodium fluoride, a white powder which can be obtained from druggists, is also effective. Apply a pinch of the powder at the base of the feathers on the head, neck, back, breast, below the vent, base of tail, both thighs and on the under side of each wing.

**DIAMONDS**

If you have a diamond that you do not wear why not sell it and buy something that you will really enjoy. As manufacturing jeweler using diamonds constantly we can afford to pay highest market prices.

**THE CRAFT SHOP**  
3rd Floor O. T. Johnson Bldg. 4th and Broadway, Los Angeles, Calif.

# HEFFERN ON CO. HAVE RIGHT TO WEAR STAR OF ARGONNE

## INCORPORATES \$5,000,000

### Prospects of a Good Well Causes Company to Get Legal Status

ANAHEIM, Aug. 29.—The Heffern Oil Company, composed of the men who are interested in the Heffern tract and Heffern well No. 1, have incorporated for the sum of \$5,000,000.

The articles provide for that number of shares at a par value of \$1.00 each, and it is understood that those now interested in the well will receive stock in proportion to their present holdings.

The temporary board of directors to hold until the formation of the corporation is perfected and permanent directors are elected by the stockholders, consists of E. K. Benchley, F. C. Krause, W. R. Ritchie and Dr. D. C. Cowes of Fullerton and W. C. Heffern, Herman Stern and W. A. Doan of Anaheim.

Work on Heffern well No. 1 is going on in spite of the fact that two joints of pipe, totaling 40 feet, are still lost in the well. Four joints were lost, but two have been recovered. The loss of the other two joints will not interfere with the work. Mr. Heffern states that they will be disregarded and the new pipe put in by going past them. He says the same trouble was encountered in Standard No. 2, the well which came in this week. This well came in at about 3100 feet, although it could have been brought in at 3000, but the drillers kept on and went into deeper sand. The Chapman gusher came in at practically the same depth.

The men interested in the Heffern wells expect to strike oil at the same depth or perhaps a trifle shallower.

Very little Heffern stock is for sale just at present. A day or so ago a small lot changed hands at six to one.

### F. A. FLEMMING BURIED AT HUNTINGTON BEACH

WINTERSBURG AND SMELTZER, Aug. 29.—Burial of Frank A. Flemming was held Wednesday afternoon at the Huntington Beach cemetery in the family lot where rests his son, Ed Flemming, and grandson, Hugh Flemming, the latter of whom passed away but a few weeks ago.

Mr. Flemming and his wife, who survives him, lived here for a time several years ago, making their home with Mr. and Mrs. Ed Flemming when they resided on what is now the Spink ranch.

Mr. Flemming, who was 80 years of age, passed away last Monday morning at a Los Angeles hospital following a lingering illness. The funeral was held in that city, the body later being brought here for burial. The short service at the grave was conducted by Rev. C. M. Ross and was attended by many Wintersburg people, the arrival of the cortege being directly after the burial service of Mrs. Barton and before the dispersal of the crowd.

The word of his death and of the burial was known to but few, the news having been sent here but a few hours previously.

The casket was opened at the grave, giving an opportunity for friends to view the remains. Among those from a distance who accompanied the cortege and are well known here, were Mrs. Avis Flemming and two daughters and George Flemming, all of Hemet.

**BITS OF ADVICE**

Practice taking such care of the chickens that they will not get sick. An ounce of prevention in this case, is worth a pound of cure.

Two parts middlings and one part cornmeal makes a good ration for chickens, but don't feed more than they will eat up clean.

It has been estimated that if all, or nearly all, of our farmers could be induced to discard scrub fowls and use only pure-bred poultry, the increase in value of poultry would be 100 per cent.

Lazy hens, like lazy men, are not money makers.—Washington Farmer.

### SUBSTITUTE FOR BITRO-PHOSPHATE LEADS TO ARREST

Pharmacist Sought to Make Fortune by Trading Upon Reputation of Well-Known Tonic, Strength, Tissue and Blood Builder—Imitation Did Not Contain Strength Giving Properties of Genuine Product.

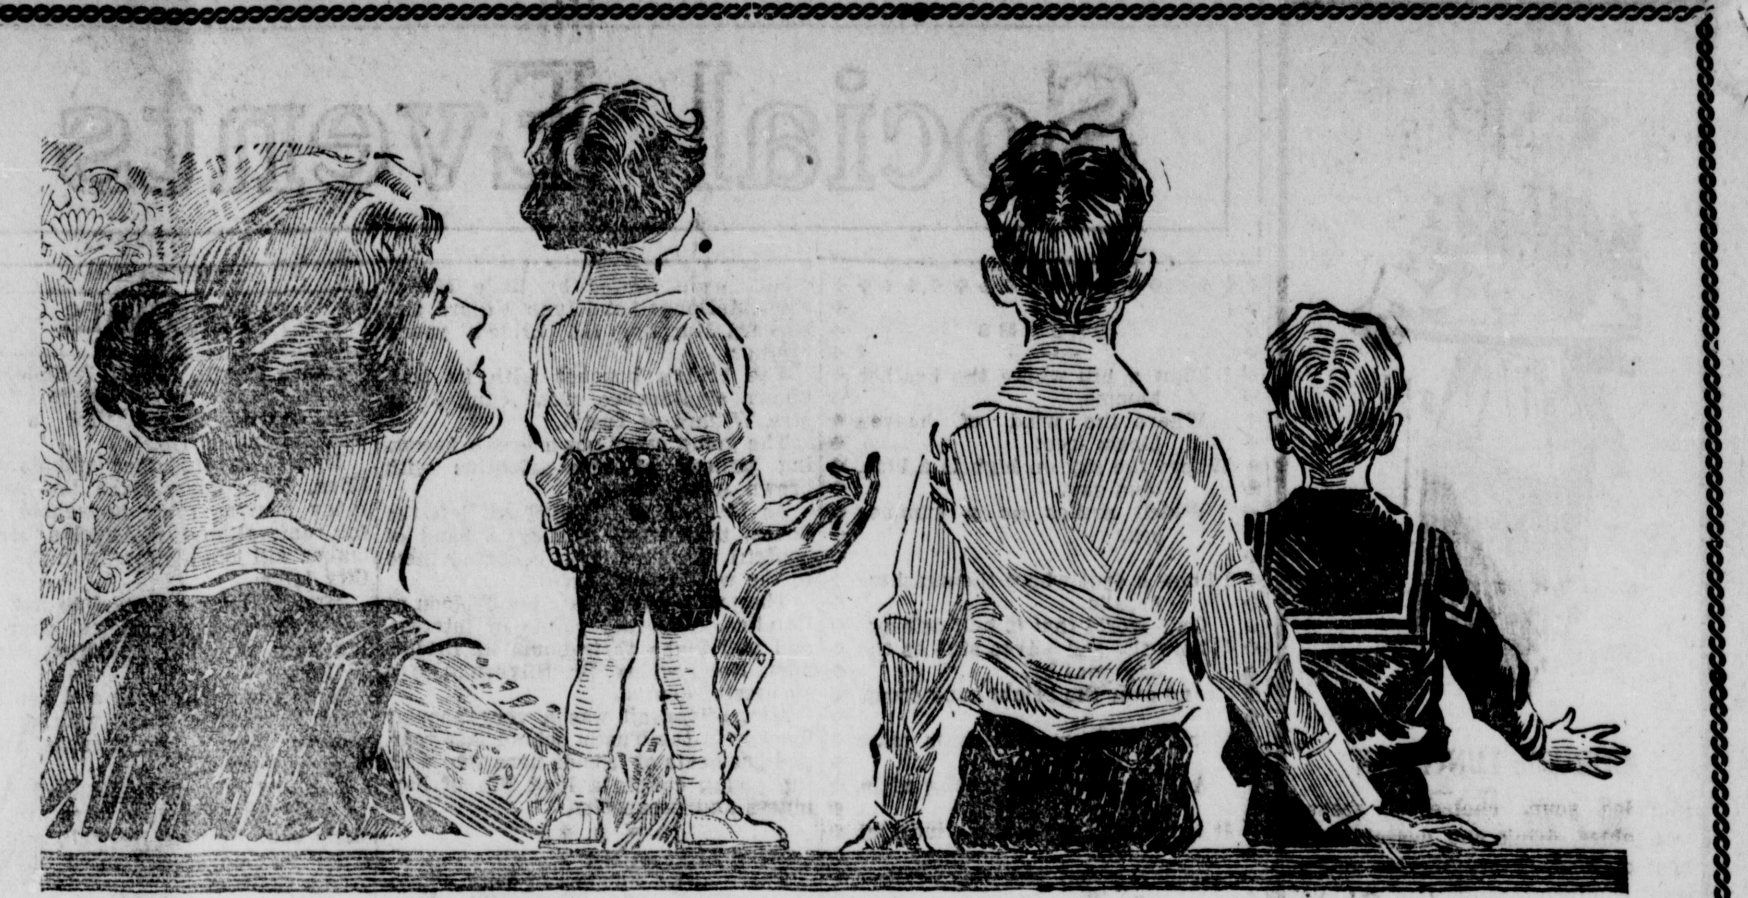

PHOENIX, ARIZ.—The arrest of a pharmacist of this city revealed a gigantic plot to violate the state and federal statutes by selling a cheap, inferior substance represented to be genuine bitro-phosphate.

The authorities found thousands of counterfeit labels and materials indicating elaborate plans for the nationwide exploitation of the spurious tonic. The case is unique in the criminal records of Arizona and serves as a warning to the public against worthless imitations designed to sell upon the reputation of high grade, efficacious preparations.

For many years Bitro-Phosphate has enjoyed the confidence of its millions of users and the fact that reputable physicians prescribe and recommend it in cases of nervousness, excessive thinness and general weakness makes it the natural target for the unscrupulous substituter.

Frederick Kalle, M. D., Editor of New York "Physicians Who's Who," says Bitro-Phosphate should be prescribed by every physician and used in every hospital to increase the strength and enrich the blood of weak, thin, nervous or anemic people.

The genuine bitro-phosphate is sold by all first-class druggists under a definite guarantee of satisfaction or money back and cases of attempted substitution for the sale of an imitation should be reported to ARROW CHEMICAL CO., sole manufacturers, 31 Union Square, New York City.—Adv.

# School Footwear for Boys and Girls

Durable, Dependable, Correctly priced. The fitting of a child's foot is of vital importance. Have them fitted by experienced fitters who guarantee the fit.

B. Uttley 117 East Fourth St.

## MINISTER SAYS WIFE KIDNAPS DAUGHTER

Hemet Man States Girl Taken  
While Picnicking With  
Orange Friends

While the Rev. A. C. Anderson of Hemet attended the annual camp meeting of his church, the Seventh Day Adventist, at Orange last week, he left his 8-year-old daughter with friends in Orange. He says that last Saturday the child was taken away by her mother, and according to the latest reports has not been located by the father. Rev. and Mrs. Anderson have been separated for some time, and the understanding has been, it is said, that the father was to have the custody of the child.

On Saturday the little girl went picnicking with friends in whose care she had been left by Rev. Anderson. During the afternoon an automobile drove up and when the child saw her mother in the car she ran to her. Then the automobile drove away. Rev. Anderson went to the place in Los Angeles where his wife had been living, it is stated, but found out that she had left there, leaving word that she was going to Reno, according to the landlord.

**BOXER DIES FROM HURTS**  
ATLANTIC CITY, N. J., Aug. 29.—Freddie Haefling, well known boxer of Wilkes Barre, Pa., who was seriously injured in a bout here last night, died early today in the city hospital.

## "BAYER CROSS" ON GENUINE ASPIRIN

"Bayer Tablets of Aspirin" to be genuine must be marked with the safety "Bayer Cross." Always buy an unbroken Bayer package which contains proper directions to safely relieve Headache, Toothache, Earache, Neuralgia, Colds and pain. Handy tin boxes of 12 tablets cost but a few cents at drug stores—larger packages also. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacid ester of Salicylicacid.—Adv.

## SURPLUS BUFFALO TO GO TO CITIES

WASHINGTON, Aug. 29.—Provision is made in the current agricultural appropriation act for the secretary of agriculture to give buffalo to municipalities and public institutions from any surplus which may exist in the herds now under the control of the Department of Agriculture. In order to aid in the propagation of the species the bill provides that animals may be lent to or exchanged with other owners of American bison. No provision is made to give them to individuals, and only one may be given to each municipality or public institution.

**Surplus**  
This provision is made because of the surplus of bulls in some of the Department of Agriculture's buffalo herds, particularly the one in the Wichita National Forest and Game Preserve, in Oklahoma, and because the department is nearing the realization of the first stage in the preservation of the species—the acquisition of at least 1000 head of buffalo by the government.

There are approximately 7000 buffalo in North America. Canada has something over 3500, and the total number in the United States is more than 3000. This is about seven times the number in the United States in 1889 when the first buffalo census was taken. Individuals in the United States own approximately 2000 of the total number in this country.

**Eight U. S. Herds**  
There are eight government herds, six of which are under the control of the Department of Agriculture. The largest herd in this country is in charge of the Interior Department and is located in the Yellowstone National Park, where there are about 450 bison. The Smithsonian Institution now has a herd of eighteen at the National Zoological Park, Washington, D. C.

The first herd of buffalo under the Department of Agriculture was established in 1906 on the Wichita National Forest and Game Preserve. The original herd consisted of fifteen animals, the gift of the New York Zoological Society, and this has now increased to more than 100 animals without any outside additions.

**Two New Herds**  
Two herds have been established in the past year, one in Sullys Hill Park, North Dakota, the other in the Pisgah National Game Preserve, North Carolina. The other herds supervised by the Department of Agriculture are located in the Montana National Bison Range; the Niobrara Reservation, Nebraska; and the Wind Cave Game Preserve, South Dakota. The plan of the department is to establish at least ten herds, widely distributed, in order to prevent the spread of any contagious disease, should it become uncontrollable in any of the herds.

Dr. Magill, Osteopathy, Phone 956-W.

## LOW PRODUCTION IS BLAMED FOR HIGH PRICES

Financiers Say America Is  
Now Paying Its Part  
of War Bill

NEW YORK, Aug. 29.—Investigators who are looking for the "guilty party" responsible for the high cost of living in the United States will never find him in America, according to Wall street financiers.

A correspondent of the United Press interviewed several of the biggest bankers of the country to ask them for their ideas on the high cost of living. Though the financial men refused to allow their names used, they were free in their opinions.

The general consensus is that the man who started the war is responsible. People who are suffering now are merely paying their part of the bill for making the world free for democracy, in the opinion of financiers.

"The present situation is the natural one after five years of destruction and non-production," explained one prominent Wall street man. "The world is short of food and clothing and supplies of all kinds. America is short because it has shipped so much to Europe, and because it is not producing enough."

"High prices are the result of a shortage on the market. Legislation and agitation will not lower prices permanently or to any extent. As soon as we begin to produce more, so that the surplus on the market causes competition for sale, prices will come down. Until we produce more, and until Europe produces more, prices will remain high."

"Wall street is not surprised at the very high prices and the unrest all over the country. The financial interests anticipated and expected this trouble. Similar disturbances have occurred after every war of importance. Look back at the period following the Civil war. The only difference is that the present catastrophe is greater than any previous one, and will be more difficult to readjust."

The bankers interviewed were not in sympathy with the agitation and legislation in Washington. Wall street considers it an ineffective way of feeding the hungry, and generally accuses the legislators of playing for publicity.

The economic situation will adjust itself along the good old-fashioned lines of the law of supply and demand, according to the financiers, who feel that nothing else under the sun can serve as a real remedy, though they admit that certain legislative moves can be injected as temporary stimulants.

## ELLIOTT HOME FROM NAVY ON FURLOUGH

Spencer Elliott, who enlisted in the navy last May through the local recruiting station, is home on a furlough. He is delighted with the navy. He has concluded the preliminary work, and is home for a visit to his parents before being assigned to a big ship. He declares the navy is getting better and better and the further he gets into the work the more he likes it. He is anticipating service on a ship with pleasure.

Chief Carpenter's Mate W. P. Hughes, in charge of the local station, has just received instructions for the guidance of men who served in the navy and have been released since the armistice was signed on Nov. 11 of last year.

Such men were given releases only, and this does not constitute an honorable discharge. Such men may now secure honorable discharges by sending their release papers to the bureau of the navy at Washington, D. C., accompanied by an application for the discharge papers.

This was made possible by an act of Congress July 11, 1919. Local men may take their papers to the local recruiting station. They will be handled by the office without cost, and all papers will be returned to the individual.

## WOULD BAR RAILROADS FROM OBTAINING LAND

WASHINGTON, Aug. 28.—The oil leasing bill now before the senate will give railroads of the west great tracts of coal lands upon the public domain, if unamended. Senator LaFollette declared today in continuing his fight for amendment of the measure.

LaFollette will press an amendment prohibiting the leasing of any coal lands to railroads.

Hydrogen peroxide is a useful chemical for removing stains. Mix with a small amount of household ammonia at the time of using. By this method the oxygen is set free and attacks the stain more readily. Apply with a medicine dropper, glass rod, or a sponge. Rinse the fabric carefully after using.

### TUSTIN NEWS

TUSTIN, Aug. 29.—Mr. and Mrs. J. A. Dowell had a twenty-fifth wedding anniversary last Saturday. They spent an enjoyable day at the beach and had no thought of a formal celebration, but when about to retire in the evening they were completely surprised by a party of self-invited guests who came to their home to observe the interesting event. The friends brought with them a feast of good things to eat, which were served while Mr. and Mrs. Dowell were showered with congratulations and best wishes for many happy returns of the day. They were also presented with a lovely silver gift. Their guests were Mr. and Mrs. R. J. White, Dr. and Mrs. G. E. Hatfield, Mrs. D. W. Ware, Mrs. Archie Ware, Mr. and Mrs. J. E. Livesey and Miss Nellie Ware.

Miss Lillian Martin and her Sunday school class, Elizabeth McDougall, Nellie Ware, Laurence Sauters, Lillian Dowell and Ellen Young, spent two days and nights at Laguna Beach at the Young cottage. Rev. W. S. McDougall took the girls down on Wednesday morning and returned late Thursday afternoon.

Mr. and Mrs. R. J. White are spending the week at Laguna. They will return after the holiday Monday.

Mr. and Mrs. Laurel Clemens spent a pleasant week at San Diego, visiting a number of interesting points in the vicinity and returned Monday.

Mr. and Mrs. N. S. Long spent the week-end with their daughter, Miss Louise Long, at Ocean Park.

Mr. and Mrs. S. W. Suddaby, whose present home is at First and Newport road, have purchased a lot of G. W. Hubbard on the northwest corner of Main and A streets, where they expect to build a new home in the near future.

Tom Cook, a former well known Tustin resident, is visiting Chicago, Cincinnati, St. Louis and other cities. He is traveling for the Sherwin-Williams Company.

The first fall meeting of the Tustin Presbyterian Aid Society will be held Friday afternoon, September 5, at the church.

R. F. Beswick and family expect to move into their beautiful new home next week. Mr. Beswick purchased the David Hewes residence on Main and B streets and all the summer workmen have been busy renovating the place. A complete new upper story has been built, the foundation has been strengthened and everything has been done to completely renew the historic old place. It was the home of the rich David Hewes and his family in pioneer days and was the center of all the social activities in the early days of Tustin.

Mrs. Charles Willard is putting improvements in her home and making it into two apartments.

The members of the Advent Christian church enjoyed an interesting talk by Dr. Powell, a returned missionary from Cha Ling, China, Thursday night. That denomination is very much interested in building a new hospital at Cha Ling.

A farewell party was given Mrs. William Hughes Tuesday afternoon by the Advent Christian Missionary Society at her home on Third street. A pleasant social time was enjoyed and refreshments served. Mr. and Mrs.

Hughes leave Monday to make their home on a ranch in Tulare county.

Miss Florence Henderson, who was the Tustin kindergarten teacher last year, will leave Saturday to take a position at Honolulu. She will leave San Francisco on September 2 for the Hawaiian Islands.

The first fall meeting of the Tustin W. C. T. U. will be held Thursday afternoon, September 11.

The late General Booth of the Salvation Army was conducting a big meeting which lasted unusually long and toward the close a newspaper reporter left his seat and gained the aisle. General Booth pointed a finger at him and said:

"Whoever leaves this auditorium will be damned by God."

The reporter answered: "If I don't leave this auditorium and hurry back to my office I'll be damned by the city editor."

"God is above the city editor," retorted General Booth.

"Yes, I think he is," piously responded the reporter, "but the city editor doesn't."—Argonaut.

## WALNUT MANAGER IS ON TRIP EAST

Diamond Brand News: Financial and trade conditions in Southern California affect the walnut business only in so far as they reflect the condition of the country in general. The association's distribution field is the entire United States and if we are to announce opening prices that will move our crop and at the same time give us an adequate return, we must be thoroughly conversant with and consider conditions not only in Southern California, but in every state in the Union.

This season with our large crop and tremendous production expense, it is of the utmost importance that every possible bit of latest and authentic information that can affect the marketing of our crop be laid before the board of directors when they are ready to announce the season's opening prices.

Abroad our office at Grenoble, France, is busily engaged in gathering data relative to the size and quality of the French, Italian and Spanish crops as well as rail and transportation conditions, price forecasts and the probable percentages that will be exported to the United States. This data will be kept right up to date and cabled to the Los Angeles office just prior to the price announcement date.

At home the sales department, through its representatives and various other sources of information, is keeping in close touch with financial, trade, manufacturing and labor conditions as well as prices and price tendencies on all food products. General Manager Thorpe will shortly start on a tour of the large markets of the country for the purpose of gaining first-hand corroboration of the results of the sales department's investigations. His trip will end in New York, where the real pulse of the nation may be found and where much valuable foreign information may also be gleaned. He will speed directly from New York to Los Angeles and be on hand to lay his conclusions before the board of directors the day the season's opening prices are announced.

According to a recent report, there are 4,000 acres of non-bearing citrus trees in Florida, and 115,000 acres which are of bearing age.

## MRS. DOOLEY'S ADVICE TO WORKING GIRLS

Milwaukee, Wis.—"I wish all girls who work and suffer from functional disorders would profit by my advice and take Lydia E. Pinkham's Vegetable Compound."

Before I was married, when I came home from work at night, I would be just worn out with pains which dragged me down. I took Lydia E. Pinkham's Vegetable Compound and it made me feel like a new woman. I can work from morning until night and it does not bother me, and I wish all girls who suffer as I did would try Lydia E. Pinkham's Vegetable Compound."

Mrs. H. DOOLEY, 1135 25th Street, Milwaukee, Wis.

Working girls everywhere should profit by Mrs. Dooley's experience, and instead of dragging along from day to day with life a burden, give this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound a trial. It has overcome just such conditions for thousands of others, and why not for you? For special advice, write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years experience is at your service.

## DO HUMAN NATURE, IDENTITY CHANGE?

William Ernest Hocking, in a recent book, discusses the mooted question: Does human nature change? He shows that among early peoples there was the firm belief that human nature is plastic. The legends of Pygmalion, Circe, Acteon, Apollo and Daphne, are a few classic illustrations of this early belief. It came down through the middle ages in the idea that the personality of the priest is transformed when he puts on his vestments, and the judge becomes a different man when he mounts the bench.

But modern thought has swung to the other extreme in the assertion that human nature does not change. Many a modern reform forces the admission that it is a high ideal, but has to meet the objection that it is impracticable so long as human nature is what it is. There is always in such objection the implication that no immediate change in human nature is to be expected.

The truth lies somewhere between these two extreme positions. Human nature does not change as easily as early people thought, but it is reasonably modifiable.

Biology testified that protoplasm, the ground-stuff of plant, animal and man, is plastic and sensitive. Budding, grafting, varying the nutrition and sunshine, Mr. Burbank has shown, will shear the cactus of its spines and add a new lusciousness and beauty of fruits. Wild animals have been transformed into docile domestic pets.

In man, the sense of personal identity binds the years together like a rosary, but every man knows that his "own self" has constantly changed from the weakness of infancy through the variability of youth to reliable maturity. And whole generations of men from being pleasure seekers have become ascetics living alone in cells. Peace loving civilians often are transformed into daring crusaders. Reactionaries have become mystics, and vice versa, while many people are twice born through some dislodging experience. These changes are not sudden, as often supposed, but come about gradually through preparation. In fact, human nature is so sensitive and pliable that Jean Paul is justified in saying, "No man can take a walk without bringing home an influence on his identity."

Tennyson, speaking of manhood sings the marvelous process thus:

The baby new to earth and sky,  
Has never thought that "this is I";  
But as he grows he gathers much,  
And learns the use of "I" and "me,"  
And finds "I am not what I see,"  
And other than the things I touch."

Through a sense of difference every individual rounds into a sense of social solidarity. Normal growth leads him from a narrow self-interest in those for whom he most cares. Just because human nature is never the same but always changing, social progress is possible.—Minneapolis Journal.

**KEROSENE FOR SQUEAKING CAR.**  
In cases of chronically squeaky springs, try jacking up the car so that the weight is removed from the springs and then soaking these latter with kerosene. Run the car for a day or so to let the kerosene soak in and then saturate the springs with some of the old oil that has been drained off from the crankcase. After a day's run wipe off any excess oil that shows to prevent the collection of unseemly dust.

**SQUIRRELS LIKE APPLES**  
A report in the Produce News says that for years ground squirrels, numerous yet apparently harmless in orchards, have received no more than passing notice from fruit growers in the Hood River region of Washington. The squirrel now has been found eating apples. Fruit growers are investing in strychnine alkaloid to poison the "digger."

Teacher—Don't you know that punctation means that you must pause?  
Willie—Course I do. An auto driver punctuated his tire in front of our house Sunday and he paused for half an hour.—Boston Transcript.

## GIVEN TERM IN STATE'S PRISON

Probation Is Denied Man  
Who Pleaded Guilty to  
Stealing Motor

His application for probation denied. Robert Silk, who pleaded guilty to a charge of stealing a motorcycle, was given an indeterminate sentence of from one to ten years at San Quentin today.

Judgment was pronounced by Superior Judge Williams, in Department 1 of the Superior court.

During the hearing on his application for probation, Silk's attorney, Leonard Evans of Anaheim, stated that the defendant could give no references, though he had lived in the United States for nineteen years.

Silk was born in Austria. At one time he worked on the San Joaquin ranch. The complaint against him was sworn to by T. J. Nelson.

Silk will be taken to San Quentin as soon as rail service is resumed.

## GIVEN 60 DAYS FOR THEFT OF BICYCLE

Jose Limas, who in a complaint sworn to by C. E. Walker, proprietor of the Princess Theater, was charged with stealing a bicycle, was found guilty in the justice court and today began serving a sixty-day sentence in the county jail.

Limas said he bought the bicycle on July 12. The wheel, which was exhibited in court, was stolen on July 28. Witnesses identified the wheel.

Among the witnesses testifying for the people were Victor M. Walker, Robert Gerwin, Elton McDermott, E. Kodama and Charles A. Holbrook.

Limas was defended by Attorney Morris A. Cain. Deputy District Attorney A. P. Nelson handled the case for the state.

## FORGERY HEADS LIST IN PROBATION CASES

There were 52 adults on probation in Orange county on July 1, 1919, against 56 on January 1, 1919, according to a report filed by J. H. Scott, probation officer. The number of probationary terms expiring during this period was ten. There were six new cases added during the period. Eleven persons are on probation for forgery, 10 for burglary, 7 for non-support and the remainder of the 52 for various other offenses.

## LIFE-LONG FRIEND IS REMEMBERED IN WILL

A petition for probating the will of Martha Van Ness, who died recently in this city, was filed today by Attorneys Eden and Koepsel in behalf of Alexander Brownridge. Property, consisting of a house and lot and personal effects, valued at \$1287, is disposed of in the will. The deceased bequeathed \$200 and a gold watch to a life-long friend, Miss Arie B. England, of Kansas City, Mo. The will directs that after the sale of the property one-third of the money realized be turned over to the Woman's American Baptist Home Mission, with headquarters in Chicago. The remaining two-thirds is to be disposed of by the executor, Alexander Brownridge, according to private instructions contained in a letter attached to the will.

## MILLIONS OF CATTLE TICKS CLEANED OUT

Despite extensive rains, swollen streams, flooded vats, and shortage of labor for grain harvesting, more than 7,000,000 dippings of cattle to get rid of the cattle-fever tick were supervised in June by federal, state and county inspectors. The actual number of dippings was 7,097,260, and while that is 524,009 less than the dippings in May, it is thought to be a remarkably good one in view of the adverse conditions with which the tick fighters had to contend.

There is another reason, too, for the fewer dippings in June, and a reason that is cited with solid satisfaction by officials of the Bureau of Animal Industry of the United States Department of Agriculture. In areas where "mopping up" work was conducted in the spring, further dipping has been found unnecessary because of the absence of ticks. That is an indication of the condition that will become more general in the tick-infested sections.

The healthy progress of the anti-tick campaign is shown by the following summary of June dippings:

Alabama	994,275	Arkansas	665,479
Florida	275,687	Georgia	528,409
Louisiana	1,505,614	Mississippi	423,686
North Carolina	7,589	Oklahoma	627,572
South Carolina	143,641	Texas (north)	1,612,969
Texas (south)	1,197,322		

Dipping vats in operation number:

Alabama	7,851	Arkansas	3,582
Florida	1,325	Georgia	2,407
Louisiana	4,545	Mississippi	5,126
North Carolina	543	Oklahoma	1,137
South Carolina	827	Texas (north)	4,549
Texas (south)	1,197		

Watsonville shipped 83 carloads of apricots this season.

## Heffern Oil Company Files Articles Of Incorporation

ARTICLES of incorporation of the Heffern Oil Company were filed today at the office of the county clerk.

The capital stock is placed at \$5,000,000, divided into 5,000,000 shares of a par value of \$1 each.

The directors are W. C. Heffern, Herman Stern, William A. Dolan, of Anaheim, and W. R. Ritchie, D. C. Cowles, P. C. Krause and E. K. Benchley of Fullerton.

## INSURANCE CASE IS TO BE TRIED OCT. 9

The case of the Western Union Life Insurance Company against John Carlos Phillipson, Leora E. Newcombe and James J. Ortega was set for trial in the Superior court today on October 9 at 10 a. m.

The complaint alleges that the defendants executed bond to the company and that while the agency established by the bond was in force the company advanced Phillipson \$200 and that Phillipson collected \$117.93 from persons insured by the company. Judgment for \$317.93 is asked.

Phillipson in an answer filed in August of last year says that he wrote \$65,000 worth of insurance for the company for certain commissions and alleges that the company agreed to pay him an additional \$2 per thousand dollars on insurance written. The latter commissions were not paid, Phillipson alleges.

Arrests and fines because of fruit packs not coming up to legal standard are becoming so common in various counties that we are perfectly safe in predicting material increase in quality of California fruits shipped out of the state.

## ASK \$50,000 AS CRASH DAMAGES

Three Olive Men Are Sued  
As Result of Accident  
In 1918

For injuries received in a motor accident on August 31, 1918, Floyd D. Browne and his wife have brought suit for \$50,000 damages against Ben J. George and August Lemke, all of Olive.

According to the complaint, filed by Attorney E. L. Davin of San Diego, Mrs. Browne was riding in the side-car of a motorcycle driven by her husband, near Olive, when there was a collision with an automobile owned by Ben J. and August Lemke, for whom it is alleged George worked. It is declared in the complaint that the defendants were responsible for the accident.

It is alleged that Mrs. Browne suffered a fracture of the frontal bone over the left eye, a hemorrhage of the right eye, severe lacerations of the right leg and a fracture of the left leg above the knee. It is stated that Mrs. Browne was in a hospital for two months, underwent two operations and must undergo another, and that \$1000 was spent in medical attention for her.

## COURTHOUSE NOTES

Josefa Yorba de Smythe, widow of John S. Smythe, who died in 1906, has filed a petition for a decree terminating Smythe's homestead interest in property consisting of a lot and a quarter of another at Anaheim. The petitioner came into possession of the property in 1876. H. G. Ames is her attorney.

Ada Mildred Cooper, with John Clarkson as her attorney, has brought an action for divorce from John Cooper.

Five estates are appraised in papers filed today by Tax Appraiser John N. Anderson, as follows: Martin Kessen, property at Orange, \$3354; Noah Hoffman, property at Orange, \$1821; August Hanke, property at Orange, \$1700; Harriet A. Bennett, property at Or-

## FILE FIRST TORRENS FORECLOSURE DECREE

The first decree to be granted in Orange county, foreclosing property registered under what is known as the Torrens Title Act, has been filed with the county recorder by Attorneys Head and Rutan. The decree was entered in favor of Mabel A. T. Lowell in an action brought against George Baue over two lots at Newport Beach. Under the Torrens act there must be filed with the recorder a certified copy of the decree of foreclosure and other papers issued in connection with the proceedings which affect the title of the property. This is required in order that the procedure taken will appear on the title certificate.

With the close of the San Joaquin Valley League after a successful season, fans are considering a new circuit comprising Visalia, Hanford, Lemoore and Tulare, to continue play for several weeks.

## TOBACCO HABIT DANGEROUS

Dr. Connor, formerly of Johns Hopkins hospital. Thousands of men suffering from fatal diseases would be in perfect health today were it not for the deadly drug of Nicotine. Stop the habit now before it's too late. It's a simple process to rid yourself of the tobacco habit in any form. Just go to any up-to-date drug store and get some Nicotol tablets; take them as directed and in the pernicious habit quickly vanishes. Druggists refund the money if they fail. Be sure to read large and interesting announcement by Doctor Connor soon to appear in this paper. It tells of the danger of nicotine poisoning and how to avoid it. In the meantime try Nicotol tablets; you will be surprised at the result.

Newport Hotel, on ocean front.

## A Big Surprise

WE certainly received a prize package yesterday—one of those agreeable kind—consisting of some superb modes in Coats, Suits, Dresses and Skirts.

They were sure welcome arrivals, coming as they did, at a time just before the Labor holiday when they were most needed.

When you are up town, just take a peep at our show windows—the beautiful fashion story they tell is but a summary of the wonderful showing of fashions on the interior.

Take the elevator and see the new arrivals in our "Ready-to-Wear" Department—You'll enjoy this autumn style picture.

## Dresses new arrivals

In materials of satin, messaline, taffeta and Georgette crepe.

Especially good looking are the  
WOOL JERSEY DRESSES

in the new shades of blue, with distinctive vests of white silk tricolette, embroidered in blue silk.

## New Skirts

WE have an unusually attractive showing of separate Skirts, models of the celebrated Sheuerman line. They come in beautiful plaids, navy blue and black serge and silk poplin.

Separate Skirts are more than ever in vogue for fall wear and milady will display wisdom placing some of the Sheuerman garments in her wardrobe.

## NEW WAISTS THAT REVEAL THE WHIMS OF FASHION

SANTA ANA, CALIF.

Always take the elevator to the second floor

Store will be closed all day Monday, September 1, Labor Day.

SANTA ANA, CALIFORNIA, FRIDAY, AUGUST, 29, 1919.

## 11,000 PEOPLE SEE PICTURES AT LAGUNA BEACH

### Art Association Holds Election of Officers—New Exhibit In September

The annual meeting of the Laguna Beach Art Association was held at the Gallery Monday evening. Thirty-five members—artists and laymen—attended. The treasurer's report shows that the organization has weathered successfully the stress and strain of war conditions and is on a substantial basis. The officers of the past year were re-elected for the coming year.

They are Edgar A. Payne, president; Anna A. Hills, first vice-president; Mrs. Thaddeus Lowe, second vice-president; Nevada Lindsay, secretary; Mrs. E. E. Jahraus, treasurer. The board of directors will also remain the same as last year—Edgar A. Payne, Anna A. Hills and F. W. Cuprien.

**11,000 Registered**  
Since the association was formed last year it is reported over eleven thousand people have registered. The members number 285 and of this, 64 artists are enrolled. These have exhibited, or will in the near future.

Edgar Payne, through whose efforts this art center was created, has visions of a permanent building for the organization, and is working to that end to secure a site that will be adequate and fitting.

The first reception of the new year will be held by the association Saturday evening, August 30. This Saturday evening will be known as the Orange County evening and an especially cordial and enthusiastic welcome will be extended to all Orange county patrons.

Miss Anna A. Hills has planned to have a number of Santa Ana people in the receiving line, as well as artists who will be in town for the reception.

**New September Show**  
The pictures exhibited will be the new ones of the September show, hung early in order that the week-end and Labor Day visitors at the beach may see and enjoy them, too.

Charles P. Austin, Showery Weather, Mission Oxcart; Helen Balfour, Spring in Topanga, In Topanga Canyon; Maurice Brant, Summer Skies; R. C. Coleman, A Heavy Sea, Sketch; The Western Sea; William V. ## VOTE HIGH SCHOOL ASSEMBLY HALL BONDS

### Apathy Is Only Danger Of Their Defeat

THE Register has not continuously urged the favorable consideration of the proposed High School assembly hall bonds, because it has felt a reluctance to assume the attitude of a monitor; and the crying need of the assembly hall is so obviously unquestionable—and unquestioned—that educational publicity has seemed superfluous.

It is in order, however, to urge all who favor the bonds to vote.

In every community as large as Santa Ana, there is a small segment of the electorate which votes against any and every bond proposition. Add to this vote the small adverse vote of those who, for one reason or another, might oppose this particular issue and the "Bonds—No" vote becomes large enough to prevail unless the "Bonds—Yes" vote is cast.

**The one and only danger of defeat for them** there is a small segment of the electorate of the voters who favor the bonds.

Let every man and woman who favors the bonds resolve NOW to vote and vote early. Think about it NOW! Look ahead and see to it that nothing shall interfere with or prevent your voting. If you are forgetful write out a memo and put it on your calendar or on the face of the clock. If you have made plans to be out of town next Tuesday change those plans. If you are away from home now, make it a point to return before next Tuesday. If voters in your family are away write or wire them to return.

Get busy. Exercise your privilege and perform your duty as a citizen.

## Bonds For Assembly Hall At High School Should Be Carried, Declare Citizens

**TO the voters of Santa Ana High School district:**  
As alumni of the Santa Ana High School, and more particularly as citizens of Santa Ana, we have looked into the matter of the desirability of constructing an assembly hall at the high school for school uses.

It was with a good deal of surprise and chagrin that we learned, some of us for the first time, that the high school is now using a firetrap, makeshift structure as a gathering place for students. We have always believed that the high standards set in the traditions of the school should demand adequate educational facilities for Santa Ana. We would not want our schools conducted in a tent. Neither should we expect school children to gather in a barn for attendance at necessary school affairs.

The building that is now used for some of the high school work is a travesty on our school system. We are thoroughly satisfied that any voter who has been in that building will decidedly agree with us in demanding that it be no longer used for school purposes, and that an assembly hall fit for occupancy by the hundreds of pupils now in the schools and the many thousands yet to come, should be erected.

We believe that the bonds should be carried at the election to be held next Tuesday. In no other way can the needed building be supplied. We are familiar with the plans of the board of education, and we assure the voters that those plans do not call for extravagant expenditures.

The building proposed will be in keeping with the growth and advancement of the schools and will be constructed with a view for making the building of the greatest possible use in school work. The amount asked is not unreasonable. We do not believe that the assembly hall contemplated and needed can be built and furnished for less than \$50,000.

## YACHT CLUB ENJOYS TRIP TO CATALINA

NEWPORT BEACH, Aug. 29.—A number of the members of the Newport Harbor Yacht Club cruised to Catalina last Saturday and remained over for the week-end to enjoy the many points of interest on the island. The weather was ideal for the cruise and the various yachts made the trip without encountering any trouble. The fleet was composed of the following boats: The Clipper, owned by A. B. West, of Riverside; Lenore II, formerly owned by L. G. Swales, but now the property of Mr. Gillay, of Los Angeles; the "Joy," owned by L. G. Swales; the "Meg," owned by Commodore Wilson; the "Natoma," owned by Rear Commodore Putnam, and the "Spray," owned by W. G. Lane.

The fleet left Newport Harbor at 9 a. m. and the "Joy" arrived at Catalina at 3 in the afternoon. On the return trip, the "Joy" was also first to reach the home port. Mr. Swales sailed his boat and was accompanied by his wife and family.

During their stay at the island, they all put up at the St. Katherine Hotel. Miss Catherine Swales, daughter of Mr. and Mrs. L. G. Swales, of Newport Heights, celebrated her eleventh birthday last week Saturday in a novel manner. In the afternoon the family went aboard their yacht "Joy" lying at anchor at Balboa, and the birthday cake, with ice cream, was served aboard the boat.

Mr. and Mrs. W. K. Parkinson have returned from a few days spent at their Glendale home and are again occupying their cottage on the ocean front near 19th street.

Frank Kozina is spending a few days in Balboa visiting with his brother, Joe Kozina.

## ERA OF IMPROVEMENT AT NEWPORT BEACH

NEWPORT BEACH, Aug. 29.—That Newport Beach is on the brink of an era of unprecedented progress and prosperity is evinced by the following summary of developments which are taking place, or will take place, and the contemplated improvements pending.

Driving of piling for syndicate docks and wharves completed and planking being laid.

Piling for public landing at Nineteenth street driven.

Contract for private wharf near Twenty-fourth street let by Glenn Helms.

Paving equipment on grounds for paving Twenty-eighth, Thirtieth and Thirty-first streets.

Dirting of alley between Adams and Alvarado by Rogers Bros., contractors.

Contemplated ways and docks by Joseph Ferguson.

Plans for public landing at Balboa completed.

Construction of brick block by John Stuckenbruck.

Finding of oil on Mesa tract by Interstate Oil Company.

Unusual activity in sale and exchange of realty in all parts of the city.

Stiffening of prices on all Newport Beach property.

**CEDAR COUNTY PICNIC**  
LOS ANGELES, Aug. 29.—The sixth annual picnic of former residents of Cedar county, Mo., will be held at Sycamore Grove, here, on Sunday, September 7. The program will begin at 11 a. m. Residents of adjoining counties are welcome.

## SURVEY STARTS FOR BOULEVARD ALONG COAST OF COUNTY

### Party Is at Work Laying Out Route For New Eighty-Foot Highway

Marking a new step in the eventual construction of the 80-foot boulevard to be built by the State Highway Commission—along the Orange county coast, a party of five surveyors, headed by D. B. Cooper of Los Angeles, has begun to survey the proposed route.

Cooper and his party are at work north of Seal Beach and will proceed southward toward Newport.

According to Cooper, the work of surveying the highway will take from two to three months.

Cooper late yesterday afternoon visited the office of County Surveyor J. L. McBride for the purpose of securing maps. He stated that in a section such as that wherein they are now at work it requires about a week to survey two miles.

Orange county has already secured a right-of-way for a 40-foot boulevard along the coast between Sunset Beach and Huntington Beach. It is believed that securing the additional right-of-way needed for an 80-foot boulevard such as is now proposed to build will be a matter of considerable time.

As to what route the coast boulevard will take in skirting Newport harbor, this is yet very indefinite. A preliminary route was decided upon some time ago, but it is believed that this route, will not be the one eventually taken.

## PLACENTIA VOTES ON LIBRARY DISTRICT

Voters in the Placentia district today are at the polls, deciding whether they desire the formation of a new library district.

Sixty-two names were signed to the petition submitted to the board of supervisors, asking that the election be held.

The Henning building, Placentia, is being used as a polling place.

Those on the election board are Louis G. Jacobsen, Miss Margaret Strain and Mrs. Willie L. Rideout.

**Home-made Candies at home-made prices.** Nougats, fudges, creams, brittles. Lion Kandy Kitchen, 211 West Fourth St.

## Striking Actors Find Much Fun In Creating Sympathy

### Parades Held In New York Streets Bring Attention To Stage Folks

NEW YORK, Aug. 29.—The striking actors are finding time for a little fun in spite of their troubles and incidentally they are doing quite a bit of unusual advertising.

One of the strike advertisers is Ed Wynn, the "nutty" monologist, and one of the funniest men on the stage. Wynn, with a number of others, including Miss Billie Farrell, have been doing considerable parading in New York to arouse public sentiment in their favor and they have been able to inject much joy into the work.

Motor trucks and autos loaded with actors and sympathizers are seen daily in the city streets. They are decorated with big streamers and further attention is attracted to them by the celebrities who occupy the seats.

**No Tick Under the Pillow.**  
Small Scout—Dad, what are the silent watches of the night?

Indulgent Father—They are the ones which their owners forgot to wind, my son.—Boys' Life.

## CUTTING LIMA BEANS IN VENTURA FIELDS

SANTA BARBARA, Aug. 29.—Cutting beans has already begun in the Goleta and Carpinteria bean fields. The Goleta lima growers are finding assistance in handling the beans from Santa Barbara, many boys of the town having gone to Goleta to work through the bean harvest. Just now the boys are helping turn the beans. It is expected that actual threshing will begin on some of the ranches within a week.

Small white growers of Lompoc and Santa Maria districts are also cutting beans. It is reported that though the crop of both limas and small whites is falling far below last year's record harvest, there will nevertheless be large crops of both varieties.

**TO ADVERTISE APPLES**  
For the purpose of increasing the general consumption of box apples, to persuade customers to purchase by the box in order to take advantage of the bulk price, and to give preference to the "Big Y" brand, is the object of a \$25,000 advertising campaign to be put on shortly by the Yakima Fruit Growers' association.

## FREE TOLLS NOT ELIMINATED BY COMMISSION DIRECTION

### Order Issued Jan. 23 Denying Telephone Company Right to Make Charge

That the railroad commission on January 23, 1919, issued a positive order to the Pacific Telephone and Telegraph Company not to disturb the free toll zones in Orange county has just been discovered by Assemblyman Walter Eden, who has found the order among the files in his office. The order came while he was attending the State Legislature in Sacramento and was placed in his file by others. He found the order in looking over data preparatory to representing Orange county at the hearing originally scheduled for next Tuesday in San Francisco. A telegram yesterday advised that the hearing had been postponed to September 5, and another one received last night by Secretary Metzgar brought the information that the hearing had again been postponed, this time to Monday, September 15.

The hearing is one that concerns every section of the state, for the reason that the commission is to consider whether the present government rates shall continue or whether a new schedule shall be made. Strike conditions make it impossible for those delegated to the hearing to get to San Francisco and the date has been deferred in the belief that the situation will be cleared by the 15th.

Discovery of the order by Eden clears a point that has been in doubt, although the Register and other interests have repeatedly tried to ascertain whether the company eliminated free tolls here on order of the commission or by order of the government.

At the time of the hearing in this city nearly two years ago, on the petition of the telephone company for permission to raise its rates, Eden and others appeared to oppose the raise. The raise, however, was granted, but the company was directed not to interfere with the free toll zones without first submitting to the commission its primary rate areas.

**Situation Different**  
Commissioner Edgerton admitted that the situation here was vastly different from any of the kind in the state. The allied interests of the communities of Santa Ana, Orange, Gar-

# CUPRIEN, MISS HILLS EXHIBIT AT BIG FAIR

Excellent Space Is Given to  
Artists In Woman's Build-  
ing at Sacramento

California art patrons are assured of an unusual salon in the Woman's Building during the State Fair at Sacramento.

The directors have been untiring in their efforts to obtain the very best exhibits available and have exercised diplomacy in securing the pick and choice of California studios. The artists have been exceedingly courteous in the lending of their creations for the fair season in view of the fact that no lucrative prizes have been offered for these exhibits.

At least two Orange county artists will exhibit. F. W. Cuprien, one of California's foremost marine artists, has contributed to the walls of the salon a magnificent painting entitled "When Evening Veils the Sea." Miss Anna Hills has furnished an excellent art selection.

The Woman's building will offer other attractions to the women visitors at the fair. There will be daily lectures on various topics of interest to mothers and information given on such subjects as "Hygiene," "Diet," "Feeding and Care of Children" and "Home Economics." There will be a beautiful array of fancy and needlework on the main floor of the building and a rest room for the accommodation of the visitors. Women will be able to remain at the fair grounds all day long and during the evening, without fatigue with the Woman's building to offer its comfort and happy diversions.

There will be a nursery for the children with nurses in attendance and diminutive white beds, kept white and clean for the tired little tots that have fallen asleep at their play.

In the rear of the Woman's building a kiddies' playground will offer its thousand joys to the younger boys and girls. There will be the teeter-totter, the swing, the slide, and even a sand pile for the babies. A supervisor will be there to oversee the play and look out for the youngsters while their parents visit the places of interest to the big folks on the fair grounds. The directors of the Woman's building are planning a program of entertainment and education supplemented with a kindly solicitation for the women and children in all their comforts and needs.

# TRAINED NURSE GAINS 22 POUNDS

"Tanlac Is a Perfectly Wonderful  
Medicine," Says Mrs. Joseph.  
ine Freeman.

Mrs. Josephine Freeman, of 647 Towne avenue, Los Angeles, Calif., a graduate nurse who had practiced her profession for seventeen years, recently made the remarkable statement that she has not only been relieved of a case of stomach trouble of ten years' standing by the use of Tanlac, but that she had also gained twenty-two pounds in weight.

When asked if she would be willing for her experience with Tanlac to be published, Mrs. Freeman said: "Yes, indeed; I feel that I would be doing anyone suffering from stomach trouble and a rundown condition a good turn by getting them to take Tanlac. For ten years I have been having trouble with my stomach. I could not eat anything without suffering intense pains afterwards, and at times I would bloat up so with gas and such pains and pressure around my heart that I would almost faint. I became so nervous that I could hardly get any sleep or rest and got so run down and weak that I could scarcely keep up my work as a nurse. I, of course, used all kinds of medicines and did everything possible, but could never get more than just a little temporary relief.

"Finally a friend of my husband, who had been relieved of the same trouble by taking Tanlac, advised him to have me try it, and right from the first bottle I began to feel better. My appetite came back, my blood circulation improved wonderfully, and my nerves began to quiet down. I can eat just anything I want now and never have the least pain or trouble afterwards. I sleep soundly every night, and I feel rested and refreshed on getting up in the mornings. When I began taking Tanlac I was weighing only one hundred and thirty pounds and was still losing. But now I tip the scales at one hundred and fifty-two, making an actual gain of twenty-two pounds on four bottles of Tanlac. I just feel so strong and well now that it's a real pleasure for me to recommend the medicine that helped me so much. Tanlac is a perfectly wonderful medicine and I am glad to give credit where it belongs."

Tanlac is sold in Santa Ana by Rowley Drug Co., in Fullerton by G. W. Finch, in La Habra by E. H. Hilbert, in Huntington Beach by Rigdon's Pharmacy, in Orange by Dittmer's Mission Pharmacy, in Placentia by A. J. Robinson, in Tustin by Tustin Drug Co., in Brea by Brea Pharmacy, in Buena Park by Regal Drug Co., in Garden Grove by O. H. Anderson and in Laguna Beach by Laguna Beach Pharmacy.—Adv.

# EUROPEANS ASK HOW U. S. TRAINS MAIMED MEN

Vocational Education Board  
Is Getting Many Letters  
From Abroad

WASHINGTON, Aug. 29.—This week's mail brought to the Federal Board for Vocational Education a collection of letters which showed the widespread interest taken in the various phases of the work now in progress under its direction. From Bucharest, Rumania, came an inquiry as to the program of the United States for the re-education of disabled soldiers. A member of the legislative assembly parliament of Australia wrote to ask about the progress of vocational training in this country, in order to make better plans for the repatriation of Australian soldiers.

Another letter was received from Benares City, India, requesting information and advice as to the most helpful study along the lines of re-education of disabled men.

The director of the Perth Technical School in Western Australia wrote for suggestions as to continuation schools, and the director of a large worsted mill at Farsley, Yorks, England, in his effort to develop more efficiency among his workers asked the help of the board in planning for industrial training in the factory.

The agricultural department of the All-Russian government at Omsk desires a complete set of the vocational opportunity monographs for the purpose of translating them into the Russian language for the benefit of the peasantry. This extensive acquaintanceship gives much encouragement to the board.

# Tubercular Patients Aren't Moving Around As Much As Formerly

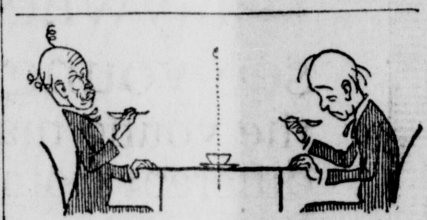

"To bring the needs of southwestern tuberculosis workers into closer touch and to help co-ordinate their work, the National Tuberculosis Association has appointed John Tombs, a prominent New Mexico public health worker, regional secretary for the Southwest," said Mrs. E. L. M. Tate-Thompson, executive secretary of the California Tuberculosis Association, in an interview. Said she:

"This comes at a time when a new angle on migration is beginning to make itself felt. In the past three years there has been a noticeable decrease in migration of tuberculous persons all over the Southwest, due to a number of causes, but recently with opening of government hospitals in nearly every southwestern state, a new problem is being created. Mr. Tombs, on account of his connection with all southwestern states, will be in a position to advise and help in many ways. By the end of the year we will have figures enough to show definitely that hundreds of California boys discharged from Camp Kearny on account of chronic tuberculosis, were not tuberculous.

"The bureau of tuberculosis is making every endeavor possible as rapidly as reports come in to close the file on any man discharged last year if the examination shows he did not have tuberculosis. However, as we have written many of the boys, it is worth the trouble they go to, if they are examined and found to have no evidence of the disease. The Southwestern Tuberculosis conference at Long Beach, October 1, 2 and 3, will bring many of these interesting topics up for discussion. Mr. Tombs enters California in the capacity of chairman of the program committee."

# IMMIGRATION BARRED BY NEW SOUTH WALES

SIDNEY, Aug. 29.—The state of New South Wales has informed the Commonwealth government of Australia that it will not permit any immigration for one year, in order to more successfully cope with the problem of repatriating its soldiers and sailors. This ban against immigration includes the British Isles, despite the fact that all other states of the commonwealth have opened their doors to emigrants from England.

Common tea is half tannin and half poor tea-flavor. When you make it, the tea-taste develops first. It hardly gets going before the tannin comes along and smothers it. Tannin, the rank, harsh, injurious —what people use to tan leather with.

Try Schilling Tea, the tea with abundance of rich tea-flavor. You'll never go back to common tea.

There are four flavors of Schilling Tea—Japan, Ceylon-India, Oolong, English Breakfast. All one quality. In parchment-lined moisture-proof packages. At grocers everywhere.

A Schilling & Co. San Francisco

# THROG AT FUNERAL OF MINERVA BARTON

WINTERSBURG AND SMELTZER. Aug. 29.—The last sad rites for Mrs. Minerva Jane Barton, who passed away Monday morning at her home at Wintersburg, were said at the Wintersburg Methodist church at 2:30 Wednesday afternoon, the burial being held at the Huntington Beach cemetery.

The pastor, Rev. C. M. Ross, was in charge of the services and the sermon was preached by Rev. Wilfred Kent, a former pastor here and a particular friend of Mrs. Barton and family. Taking as his text the 58th verse of the 15th chapter of 1st Cor., Rev. Kent extolled the blessedness of a Christian's death and the Christian practice of the deceased in life. Rev. Ross gave a short sketch of Mrs. Barton's life and read a number of passages of Scripture from her Bible. One reading was taken from the book of Acts, a verse selected from the page at which her Bible lay open on her lap when she was found sitting in her chair, stricken with apoplexy.

Mrs. Barton was born in Kentucky, December 5, 1855, and as a baby moved with her parents to Arkansas. Here she grew to womanhood and married, coming from there to California in 1900. She was the mother of six children, all of whom survive. They are Mrs. Ella Foster of Fort Smith, Ark.; Oscar Taylor, Geo. Taylor of Huntington Beach, A. A. Taylor of Smeltzer, Otis Taylor and Mrs. May Moore of Wintersburg. A step-son, Munroe Taylor, resides at Hemet, Oscar Taylor, who has but lately returned from overseas, could not be located in order to notify him of his mother's death.

The music of the funeral services was furnished by a mixed quartet composed of Mrs. H. O. Ensign, Mrs. C. N. Davis, Messrs. Carl Farrar and Wm. Phillips. The songs rendered were "Jesus is Mine," "Nearer, Still Nearer," and "Shall You, Shall I."

The pall-bearers were A. H. Moore, Geo. Crane, Chris. Nelson, H. O. Ensign, E. M. Fox and B. T. Gothard.

The decorations were the work of Mrs. C. N. Ross and added to this was a great number of floral pieces.

The church auditorium was filled to its seating capacity by friends who truly mourn the passing of one who was beloved by the entire community.

Among friends from a distance who attended the funeral were Mr. and Mrs. Walter Beuhler of Cucamonga, Rev. and Mrs. Wilfred Kent of Yorba Linda, the Misses Compag of Long Beach, Mr. and Mrs. Ed Moore of Orange, Mr. and Mrs. Applebloom of Corona, Mrs. Beren Walker of Santa Ana, and Miss Edna Poote of Santa Ana. The latter was Mrs. Barton's nurse during her two weeks' illness.

—If I were rich, darling, would you love me more than you do?" She—"Well, I might not love you any more, but I should look forward to our wedding day with a great deal more impatience than I do at present."—Boston Transcript.

# DOESN'T ELIMINATE FREE PHONE TOLLS

(Continued from Page Nine)

den Grove, Tustin and Smeltzer were brought to the attention of the commission with such force as to impress it with the necessity of the free zones. Other counties in Southern California were concerned in the hearing and in each rate increases were granted and free tolls eliminated. The reservation with reference to Orange county attested the impression made on the members of the commission by the facts developed here.

"The result of the telephone users of Orange county and thousands of dollars were saved to them by reason of the continuation of the free toll zones," declared Eden today.

"The free service continued up to the time of the government order and no doubt would have been in effect today had not the lines passed to government control.

"The hearing in San Francisco on September 15 is one that concerns Orange county, and should be followed by every one in the county. The commission probably will make some readjustments, and our people should fight for preservation of the free zones. It means dollars and cents in their pockets, aside from the convenience offered to business men and farmers."

**Ready to File Franchise**

The application of the Farmers and Merchants' Association for a franchise to operate a mutual telephone association in Orange county has been drafted and signed by President Chas. Eygabrad and Secretary H. B. Woodrough. It will be presented to the Board of Supervisors next Tuesday. It will ask for the right to put up telephone poles on all the public highways of the county outside of incorporated cities, with applications to be made to city councils for rights within cities.

The franchise will be advertised for sale. If "free works" are to develop in connection with a legal battle to stop the association from carrying out its plans, the action should come pretty quick.

Should the railroad commission decide that the free toll zones shall be preserved in Orange county, it will in no way deter the directors of the county association in their plans to institute a system giving free switching to all parts of the county.

**NOTICE**

The Merchants' and Manufacturers' Association regularly observe LABOR DAY, MONDAY, SEPTEMBER, 1st, as a closing day. The Directors have also declared TUESDAY, SEPTEMBER 9th (Admission Day) a holiday in honor of the celebration to be held at Orange County Park in honor of Orange County's returned service men, and recommends that all business be suspended for that day.

H. J. LOWE, President.  
JAS. C. METZGAR, Secretary.

**Good Footwear News**

Early last spring we were offered an opportunity by several large shoe factories of popular price goods to contract for our supply of fall and winter footwear, especially school shoes, at last year's prices. We were not slow in taking advantage of such a magnificent chance and placed orders in wholesale quantities, not on speculation but for the benefit of our customers, to enable us to supply their needs at reasonable figures. These shoes have arrived and are now at your service at prices not of the present market value but at prices based on our actual cost. The present wholesale market value of most of these shoes exceeds the prices we are offering them at, so do not hesitate in calling at our store at once and procure your wants in girls' and boys' school shoes. You will wonder at the reasonable prices we are quoting on them.

**Children's Shoes**, sizes 5 1/2 to 8 in Kid or Gun Metal all black or with gray tops, lace or button, **\$2.00 to \$2.50.**  
**Children's School or Dress Shoes**, sizes 8 1/2 to 11, in Kid or Gun Metal, all black or with gray tops, also brown in all leather, at **\$2.50 and \$3.00.**  
**Misses School or Dress Shoes**, sizes 11 1/2 to 2, in all Kid or Gun Metal, or with black or gray cloth tops, also brown calf in all leather, at **\$3.50 to \$4.50.**  
**Children's and Misses Goodyear stitch Down Shoes**, scuffer style in Kid or Gun Metal, all with leather tops, excellent high grade shoes at **\$2.50 to \$3.50**, according to size.  
**Full line of Children's Elk Skin Shoes**, genuine Goodyear welts, sizes 5 1/2 to 8, 8 1/2 to 11 and 11 1/2 to 2 at **\$2.75, \$3.00 and \$3.50.**  
**Growing Girls' School or Dress Shoes** in ladies' sizes with low heels, also very practical and comfortable for ladies wear in sizes 2 1/2 to 7 in Kid, Gun Metal or Brown Calf, at **\$4.50 and \$5.00**; better quality at **\$5.00 and \$5.50**; best quality with Goodyear stitch in Kid or black or brown calf at **\$5.50 and \$6.00.** Our growing girls' shoes are all with full leather tops.  
**Ladies' Kid Shoes** with French or Military heels for young ladies' with light or dark gray cloth tops, stylish and dressy at **\$5.00.** The same as above with full kid top at **\$6.00**; black only.

**Boys' School Shoes**

Gun Metal or Mahogany Calf, little gents' sizes 9 to 11, **\$2.50 and \$3.00.**  
The same as above in sizes 11 1/2 to 13 at **\$2.75 to \$3.50.**  
The same as above in sizes 13 1/2 to 2 at **\$3.00 and \$4.00.**  
The same as above in sizes 2 1/2 to 6, at **\$3.50 to \$5.00.**  
Best quality in black or brown calf with Goodyear stitch, sizes 11 1/2 to 13 at **\$3.50 and \$4.00.**  
Sizes 1 to 2 at **\$4.00 and \$4.50.** Sizes 2 1/2 to 6 at **\$5.00 and \$5.50.** Also boys' shoes in men's sizes from No. 6 up in black or brown calf at **\$4.00 to \$5.50.**  
In addition to the above boys' school shoes we have placed in stock for the winter season a full line of heavy Elk Skin shoes in black or brown for extra hard wear in sizes 9-11, 11 1/2-2, and 2 1/2-6 at prices from **\$2.75 to \$3.50.**  
We are still selling men's best quality brown or tan Goodyear welt army shoes, Monson last, at **\$6.50**; present market value, \$8.00.

**We Are  
Going To Move**  
and the Orange County Agency for  
**REPUBLIC TIRES**  
both solid and pneumatic, will be located in quarters in the New Moreland  
Truck Building, Fifth and Ross, after September 1.

**Tire Bargains**  
During the few days that we remain at our present location bargain prices will  
be offered on the following tires:

Goodyear, plain	30x3	\$10.00
Miller, plain	30x3	\$12.00
Hendrie, plain	30x3	\$15.00
Goodrich, safety	32x3 1/2	\$20.00
Federal, plain	31x4	\$20.00
Savage, non-skid	32x4	\$25.00
Goodyear, plain	32x4	\$25.00
Goodyear, all weather	32x4	\$28.00
Goodyear, plain	34x4 1/2	\$30.00
Fisk, cord	35x4 1/2	\$50.00

Prices on second hand tires have been reduced in the same proportion as the above quotations. These are good rubber—no junk.

WHEN PROPERLY COOKED GIVE  
HEALTH  
BAKER'S LETTER  
TREASURED BY  
MARINESFresh Vegetables Spell Vigor  
and May Keep Away  
Sickness

Fresh vegetables, served freely, spell vigor and freedom from sickness for those who eat them. They keep the blood as it should be and the whole body in good condition. The whole family will ask for a second helping if the vegetables are cooked so they are refreshing, says a bulletin of the Department of Agriculture.

Vegetables just out of the garden taste best when simply cooked—steamed, boiled or baked—and served with a little salt, butter, milk or cream. Often a heavily seasoned sauce covers up the more desirable vegetable flavor. Overcooking of vegetables impairs their flavor. Very delicate flavors are destroyed, while vegetables with very strong flavors, such as cabbage or onions, become disagreeably strong if cooked too long. Overcooking also destroys the attractive color of some vegetables.

Cook summer vegetables as soon after they are gathered as possible, in order to preserve the flavor. If they must be kept over, keep in the ice box or some other cool place.

Let wilted vegetables soak in cold water to freshen them. If vegetables must stand after paring, cover with cold water to prevent wilting and discoloration.

Before cooking, put head vegetables and greens in cold water for one hour with a tablespoon of vinegar to remove insects, then wash very carefully.

Drain all boiled vegetables as soon as tender—they become soggy if allowed to stand undrained after cooking. The water drained off may be saved for soup stock.

Most vegetables are better when cooked in a small amount of water because a part of the mineral salt dissolves out into the water and is lost if the water is thrown away. Cook whole when possible.

Tender spinach or lettuce leaves require no added water for cooking. If thoroughly washed, enough water will cling to the leaves to prevent burning.

Delicately flavored vegetables should be steamed or cooked slowly in a small amount of boiling water until tender and the water boils away.

Strongly flavored vegetables may be cooked uncovered in a large amount of rapidly boiling water, and the water changed several times during the cooking.

Starchy vegetables should be put on and cooked in a sufficiently large amount of boiling water to cover them. Boil gently and keep kettle covered.

The time required for cooking vegetables depends on the kind, size, and age of the vegetable. Judgment must be used in deciding when they are quite done but not overdone.

BIG MARKET BASKET  
NEEDED FOR FLEET

Quite apart from considerations of international relations, there are, of course, matters of immediate practical interest to us, as hosts of the Pacific fleet, since it is a paying guest.

When Uncle Sam goes shopping round our western markets to keep up his reputation as a good provider for his sailors, he has to carry a large basket on his arm. The sea breezes of the Pacific will not dull the ever keen appetites of these 35,000 navy men detailed to live among us and to live well. Once a month that market basket must bring back to the cooks' galleys, in round numbers, nearly two million pounds of fresh vegetables, 100,000 pounds of fresh meats, a million pounds of flour, of sugar 400,000 pounds and of coffee nearly 100,000 pounds, according to figures given by Rear Admiral McGowan, chief of the bureau of supplies and accounts.

A launch might float in the catsup needed for one month—3830 gallons—or in the vinegar—2160 gallons—and in the 3000 pounds of yeast needed for the month's bread there might be lifting power enough to stir a ship in drydock, helped out by 6490 pounds of baking powder. Ye orchards and canneries of the west, welcome Jack and his bunkies, for he uses, every thirty days, 33,100 pounds of prunes, 35,690 pounds of dried apricots, 5360 pounds of raisins, 36,970 pounds of canned pears, 45,880 pounds of canned peaches. Upon his bread he spreads 30,370 pounds of jam and 124,070 pounds of butter. He must have 3170 gallons of syrup and 13,700 pounds of pickles and 10,260 pounds of cheese. And to give him his bowl of mush and milk he needs 25,160 pounds of oatmeal and 124,910 pounds of evaporated milk.

The tourist was ever dear to us for just such reasons as these figures give. "This first big batch of travelers through the Panama canal would be welcome if their coming meant no more than this. But such talk is sacrilege, considering that they are not tourists, but additional members of our 'home defense,' and that their coming is reason for deep patriotic rejoicing in every western heart.—September Sunset.

Blank is the greatest blunderer in making excuses we ever knew, says the Boston Transcript. The other day a lady he did not particularly care for met him and said: "We shall be back from the beach pretty soon, and I'd be glad to have you come and lunch with us. Suppose we make it Thursday, three weeks from today." Wishing to get out of it, Blank stammered: "Ah—erlet me see—three weeks from today, you say? Oh, I shall be going to a funeral on that day."

Secretary of War Praises  
"First to Fight" Boys  
For Valor

Marines and their relatives will treasure the following letter of tribute—an epic in brief of the Marine Corps' splendid fighting in France—sent by Secretary of War Baker to Secretary of the Navy Daniels upon the transfer of the famous Marine Brigade back to the navy.

"War Department,  
Washington, Aug. 11, 1919:

"My Dear Mr. Secretary:

"In the process of demobilization, the Marine Brigade, which, by the President's order, became a part of the American Expeditionary Forces, and was thus a part of the forces under control of the War Department and the command of General Pershing has now been returned to this country, detached from the army and restored to the control of the Navy Department.

"I cannot permit this heroic force to terminate its association with the army without expressing to you and through you to the officers and men of the Marine Corps, the deep sentiment of the War Department and of the army toward it.

"The whole history of the brigade in France is one conspicuous service, when it was finally incorporated into the Second Division of the American Army it had early an opportunity to give a heroic demonstration of the unconquerable tenacity and dauntless courage of American soldiers.

"From then on in successive—almost continuous battles—the Marine Brigade and the division of which it was a part fought sternly and successfully until victory was obtained for the Allied armies. Throughout this long contest the Marines, both by their valor and their tragic losses, heroically sustained, added an imperishable chapter to the history of America's participation in the World War. On behalf of the army, I congratulate the Navy Department, the Major General Commanding the Marines, those who have been instrumental in the formation and training of this splendid organization, and the officers and men of the organization itself.

"Cordially yours,

"NEWTON D. BAKER,  
"Secretary of War."

## HARPER HAPPENINGS

HARPER, Aug. 29.—An increase in population for the past week is a 13-pound girl on Saturday, Aug. 23rd, to Mr. and Mrs. Harry Boyd, and on Sunday, Aug. 24th, a girl baby to Mr. and Mrs. D. J. Dodge, and also a girl baby to Mr. and Mrs. Lewis Dixon.

Mr. Spencer is having his place ditched for an irrigation pipe line. Mr. Barnett is doing the work with his ditching machine.

Little Luella Dixon was painfully injured by having her finger caught in a closing door. She was taken to Santa Ana and an X-ray revealed the bone both split and crushed.

Mr. Barnett is making about 2400 feet of ditch for a 12-inch pipe line on 17th and Monrovia streets.

Aaron Smith is building a new house which will be two-story and containing eight rooms. He bought the lower floor, which is 22x34 feet, from the old school building at Fairview, and put it on a cement foundation. With its 2x12-inch joists, 16 inches apart, it makes a very solid foundation.

Harper has been thoroughly covered for the past week by a flying machine sailing around. It is reported that on Tuesday the bird-man took in \$140 from passengers who wished to ride with him at \$10 a trip.

Mrs. Aaron Smith went to Los Angeles on Tuesday to visit with her former neighbors, the Amend family.

The Harper people are quite awakened by the striking of oil at the Inter-State well, which occurred one day last week. With the oil also came water to the extent that on Wednesday of this week the water was cemented off and the quantity of oil will not be determined until after the cement sets and is bored out, which will take ten or twelve days. The oil was struck at a depth of 2400 feet.

Another oil company has entered the western part of Orange county and taken a lease north and east of the Inter-State lease. It is reported to be known as the Shell Oil company from Coalinga, California.

News comes from Mr. and Mrs. E. Goepfer, who went to Catalina island several months ago, that they are highly pleased with that place. They are both employed, and improvements are booming on every hand.

George A. Dodge, of Hanford, Cal., is now on a visit to his brother, Frank L. Dodge. He is interested in the efforts of the different oil well companies to strike oil in this part of the county, and as he has used the "divining rod" or crocheted stick for locating water and oil, he tested this section on last Saturday and found strong indications at the Liberty Well field; also at the Inter-State location.

He traced out the Coalinga oil field years ago before any well was bored there, and tried to form a syndicate to locate an oil district, but failed to interest enough to go ahead with it. The same ground is now a richly producing oil field. His success in locating water wells in the San Joaquin valley has been ample to convince him that the "Wand of Mercury," the "rod of Aaron," which stands for the crocheted stick, in his hands is an indication of subterranean channels.

Sure Proof  
Mrs. De Nagg—I had a dozen proposals before yours and all from snarlier men than you.

Mr. De Nagg—I'm sure they were for they all managed to get out of it.

RIVERSIDE FAIR STRANGEST LAKE  
TENT SPACE IS LAKE BAIKAL  
BEING SOLD IN RUSSIA

RIVERSIDE, Aug. 29.—The ground plat for the big agricultural tent for the Southern California fair, October 7 to 11, has been drawn and blue prints were sent out last week by Secretary Van Pelt to all superintendents of community exhibits for their selection of space. This will be the largest tent ever erected on the fair grounds and the agricultural and horticultural display from this and adjoining counties promises to be the greatest ever shown.

The use of the aeroplane as a practical method of transportation will be exemplified at the fair. A landing will be prepared on the track field and passengers will be carried to and from the fair during the week.

Arrangements are being made to hold a sale of thoroughbred stock at the fair. Much interest is being taken by stockmen in this proposed sale, and plans will be perfected this week for getting out a catalog of the pedigreed stock to be sold.

Hardy W. Campbell, better known to all old farmers and nearly all new ones as "Dry Farm Campbell," has agreed to act as one of the agricultural and horticultural judges. He will be at hand also to give any information in his special line of soil culture.

HORRORS OF WAR.  
The melancholy youth was lying in bed entertaining his visitors with tales of the battlefield.

"Yes," he said, and his voice was almost tearful. "I have had a rough time. I was once so riddled with bullets that the fellows behind me complained of the draught!"—Blighly, London.

ANNOUNCEMENT  
We have opened and established our store No. 2 at Delhi to be known as the Delhi Cash Grocery. Will do strictly a cash business and meet all prevailing prices. Call and see us. Phone 705-J. Oscar Cochems, Prop.

Lake Baikal is the great lake of Russia in more than one sense. It is the deepest in the world, one of the largest, and besides it is, to the Russians, holy. The people who inhabit the region of Lake Baikal firmly believe that both the lake and its surroundings are endowed with supernatural powers and inhabited by unearthly beings. All manner of weird tales mingle with their explanations of any feature of the lake.

Even so simple an object as a great rock lying in the middle of a river just where it flows from Lake Baikal takes on a mysterious significance. If this stone were to slip from place, they say, the whole of Lake Baikal would pour out of its basin and flood the river and probably the continent.

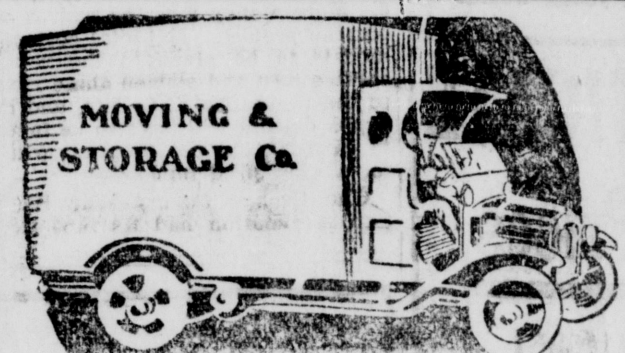

Yet, even without native interpretation, many things are strange about the great Russian lake. One of Baikal's phenomena is a species of fish that inhabits the deepest part. These fish have been seen by few persons, for as soon as they are lifted out of their accustomed atmosphere of high pressure, they explode.

Lake Baikal has played an important part in Russian affairs. It lies directly in the way across the continent, and before the railway was built around the southern end of the lake, it had to be crossed by Siberian travelers going either east or west.

In summer steamers carried freight and passengers, but in winter, when the lake was ice-bound, traffic depended on the slow work of an ice-breaker—a steel ship that could cut ice four feet thick—and when the ice became too thick for the breaker, sledges made the forty-mile trip over the ice.

During the Russo-Japanese war when troops had to be rushed from one end of the empire to the other, Lake Baikal was a great obstacle to speed until engineers laid tracks across the ice sheet and ran trains across it.—Arkansas Gazette.

ORANGE PERSONALS  
AND NEWS NOTES

With the city divided into small districts, Orange today renewed the campaign to put that city over the top in her quota of subscriptions to the Orange County War Recognition Association. A number of young women are

out in a house-to-house campaign to induce memberships in the organization. The city is considerably short of its quota—likewise are all the districts of the county.

R. L. Bisby, chairman of the executive committee, has advised all district chairmen to make plans for another drive on Thursday, Friday and Saturday of next week, September 4, 5 and 6. More money must be had to carry out the project. The total cost of the medals to be given to the returned service men and women alone runs into the thousands of dollars, and other expenses that will have to be incurred in carrying out the program will call for a good sized fund.

The Orange County War Recognition Association had its inception at

Anaheim and at a meeting of representatives from Chambers of Commerce and other organizations of the county, the executive committee was named and it. L. Bisby was made chairman.

The purpose of the organization is to give the people of Orange county an opportunity to show their appreciation to the returned service men and women for the part they took in the late war.

"Admission Day, September 9th, was selected as the date on which to hold this Welcome Home Celebration, and Orange County Park was designated as the place," says Bisby.

Gov. Stephens to Be Present

"Hon. Wm. D. Stephens, governor of the state of California, is to be present and present these souvenir medals to our returned service men and women."

"Each returned service man and woman will be given a medal and every man or woman in the service from Orange county, or who has made Orange county his permanent home since the war, will receive one of these souvenirs."

"The Board of Supervisors has completed arrangements to have the cornerstone of a memorial arch ready on that date and Governor Stephens will lay it. In the cornerstone will be placed a copy of every paper published in the county, the date nearest to the laying of the cornerstone, a combined statistical report of the War

Activities of Orange county, together with the names of every member of this organization who has helped to purchase the medals for our returned service men and women, the names of the Board of Supervisors, the names of the Exemption Boards of Orange county, also a complete list of that loyal body of men and women who went from Orange county to back up the cause of freedom in the World War.

Coffee, Lemonade, Ice Cream  
"The committee has arranged to make 1000 gallons of coffee on that date so that each and every person present may have a cup. There will also be 500 gallons of lemonade, 100 gallons of ice cream and 5000 cones for the kiddies, barrels of ice water and many other features that will lend to the comfort and convenience of the people."

"Several thousand packing boxes are being secured from the packing houses to be placed in and around the grounds so that all may have a seat."

"This is going to be a real home coming to the men and women who have been over there."

"Those who have purchased the medals for these service men and women are those who are wearing the Orange County War Service Recognition Association button. If you have

not exercised this privilege of contributing to the purchase of these medals, you are depriving yourself of the pleasure of knowing that you have done something for someone else. The buttons are on sale at the drug stores and banks of Santa Ana."

PRESENTED SERVICE  
FLAG TO I. O. O. F.

ANAHEIM, AUG. 29.—Following the business meeting of I. O. O. F. lodge, Judge Howard presented the lodge with a beautiful service flag, 18x30 inches, containing ten stars for the ten members of local lodge No. 199 who were in the U. S. service. Each star contained the picture of one of the service men. The flag will be framed and hung in the lodge rooms. Of the ten men, eight were overseas, five of whom have now returned. One was at Camp Kearny and one at Camp Lewis throughout enlistment.

Another feature of the evening was the presentation to C. W. Thornthwaite, who recently entered the auto painting business on East Center street, of a beautifully engraved gold watch chain, the token of his former lodge at Bend, Ore.

## SALOONS FOUGHT BY KENTUCKY DISTILLER

Whisky Maker Would Have Booze Sold By the Grocery Stores

NEW YORK, Aug. 29.—Distillers are wondering what they are going to do with the huge stocks of liquor left on their hands when the nation went into its prohibition period.

They believe, according to O. H. Wathen, who is head of Kentucky's largest whiskey manufacturing plant, that whiskey will come back some of these days, but even they are firm against allowing it to come back in the old way.

"We don't want saloons," Wathen said today. "We would have liquor take its place as a commodity, to be disposed of at the grocery or the department store. We have no patience with the saloon. It got us into all our trouble. A man used to drop into a saloon, begin consuming whiskey and walk out a staggering drunk. He went home and annoyed his wife, the neighbors saw him and pitied him. The dregs pointed to him as a horrible example, and whiskey took all the blame. We believe whiskey can be handled right in this country, and we are going to make a fight to that end. Abolish the saloon and let the householder buy his whiskey and take it home. That's what we want to happen, and we want to do away with the bad whiskey that made physical wrecks of people. Good whiskey won't hurt any one unless he makes a pig of himself."

Wathen estimated that there is \$77,000,000 in whiskey tied up in government warehouses. The government agents hold the key to this stock, not the distillers. A great deal of it represents the capital of distillers. They want a chance to get rid of it, and are hoping that congress will in some way declare war prohibition at an end and give them a chance to sell off the accumulation.

"If congress will allow us to start in September to get rid of our stocks," said Wathen, "we will come near disposing of it by the time the national prohibition law goes into effect. I think we are entitled to some consideration."

"We can't get insurance on stock unless policies had been issued before prohibition went into effect. Insurance companies fear destruction of the liquor by some fanatic, so we are facing more than merely a loss through confiscation. If a fire were to start in some of these plants it would wipe out the men who are holding the stocks."

Wathen said that when the government banned the use of corn, barley and rye in the manufacture of whiskey, it was with the understanding that war-time prohibition would be lifted in time to allow the dealers to dispose of their stocks. This promise, he declared, has not been kept.

Asked if export business was relieving the situation any, the distiller said the effect was hardly noticeable. "They don't care for American whiskey in England, Ireland and Scotland," he said. "They prefer Irish and Scotch whiskeys. We are shipping some abroad, but not a great deal, and within a short time that avenue will be cut off. In France they prefer wines."

"That man is an egoist. He talks constantly about himself," "And yet," said Senator Sorghum, reported in the Washington-Star, "I'd rather take a chance on the man who is talking about himself than the one who talks about other people's interests and all the time thinks about himself."

## BRITAIN MAY BE CONTROLLED BY LABOR PARTY

Coalition Government Said To Be Doomed; Many Old Policies Dropped

LONDON, Aug. 29.—With the rumblings of approaching dissolution shaking the coalition government, and recent developments in the industrial world, all eyes are turned on the Labor party in the House of Commons and the question, "How long before a Labor government is in power?" which would have been laughed at ten years ago, is asked seriously.

For labor alone of the political parties stands better than ever before, and political experts declare that labor can never expect to find itself in a more favorable position, politically. The coalition is doomed, but neither of the old parties, Liberals and Conservatives, can go back to their pre-war status. Many old leaders have been thrown overboard, policies have been modified or abandoned, and the breaking up of the coalition would leave them shivering like the babes in the wood, uncertain which way to turn, or who to look to.

Labor is not absolutely united in parliament, there being several groups, known as the Labor party, the Independent Labor party, the miners' representatives, and numerous free-lancers like Colonel John Ward, the "navy" M. P. who was promoted to the command of a battalion in the war; C. B. Stanton, one-time miners' agent; Commander J. H. Wedgwood, one-time Liberal, and Jack Jones, the "Common People's Member," from East London.

The Independent Labor Party contains the "intellectuals" like Philip Snowden, Ramsay MacDonald, Sidney Webb and other regular Socialists, but for the purposes of a Labor government they would unite with the larger group. And in the two groups there are many good men, who would doubtless make excellent statesmen, and who would have the support of people ordinarily bitterly hostile to labor.

There are George N. Barnes, cabinet minister, who fathered the labor covenant of the peace treaty; G. H. Roberts, food controller, in the present government; Stephen Walsh, at present holding a minor government post; William Bruce, Vernon Hartshorn, Will Thorne, James O'Grady, J. H. Thomas, railwaymen's leader; William Adamson, the official leader of the Labor party; Arthur Henderson, and last but not least, Robert Smillie, president of the Miners' Federation of Great Britain.

Of these, Smillie stands out most prominently, from the vigorous part he has taken in the settling of post-war labor problems, and he is probably the most powerful man in the labor world today. Whether he or any of the others have the makings of a premier remains to be seen but they have a fine chance just now to formulate a smashing, reasoned program, and secure the spoils of office.

It is practically certain that Labor, today, could defeat both of the old political parties working independently, and the proposed Center party, a combination of the two, could not be certain of securing a majority over the united ranks of Parliamentary labor. The formation of a new party is always a source of strength to its opponents, for secessions are inevitable and in the uncertainty Labor would undoubtedly gain many recruits.

The main problem for Labor to solve is whether the extremists are to prevail. At the last election the extremists were roughly treated at the polls, but while there has been the inevitable reaction since the signing of peace, their policy is not popular. If the moderates like Adamson, Bruce, Barnes, Thomas and Roberts can retain control a Labor cabinet is not only possible but extremely probable.

## WOBBLING WHEEL MAY REDUCE YOUR MILEAGE

Bumping into curbs, hitting bumps in the road, turning out shocks and jolts are very likely to cause misalignment or wobbling of wheels or both.

When this happens, the wheels travel with a skidding action which wears down treads very rapidly, even if the irregularity is so slight that the eye can hardly detect it. You should, therefore, test your wheels frequently to make sure that they run true.

Probably as many as one car in three has one or more misalignment or wobbly wheels, robbing their tires of thousands of miles of service.

Because of the turn-to-the-right rule of the road, the right front wheel often forces into the ruts, going at the side of the road, and is likely to receive severe glancing blows which may produce misalignment, springing or dishing.

**STRETCH THE GASOLINE.**  
An appliance enabling an automobile to run seventy-five miles on a quart of gasoline is said to have been invented by Warren Whipp of Cleveland, O., winner in Paris as a chauffeur for the Red Cross. The new appliance dispenses with a carburetor, feeding the gasoline directly.

The huge gray transport was clipping off seventeen knots through the Bay of Biscay; her bow was pointed towards the west—towards home—the land of sunshine and watermelons, relates Judge. Even the peculiar empty sensation at the pit of the stomach could not eradicate the joyous look stamped upon the black faces of the colored troops returning home. All seemed supremely happy except one giant negro buck private who sat upon the hatch registering profound gloom. The despondent one hailed a passing "gob." "Pahdon me, sailor, but there ain't no life presevah in mah bunk." "Oh, that's O. K.," replied the sea-going one, "this gadget's all ship—guaranteed to float in a typhoon." "I ain't worrin' none about that," the sailor replied the dark doughboy, "but those all life presevahs make a right smart pillow!"

## DON'TS FOR USERS OF STORAGE BATTERIES

Don't overcharge battery or discharge it at too high a rate.  
Don't let battery stand discharged.  
Don't let acid fall below top of plates.

Don't short circuit battery.  
Don't use anything but distilled water for recharging.

Don't use commercial acid—buy storage battery electrolyte.

Don't allow metal tools to come in contact with battery.

Don't allow acid to slip over the top of battery.

Don't keep battery in cold, damp room.

Don't allow battery jars to come in contact with each other.

Don't let the emf. of some cells fall below that of others.

Don't let connections get loose.

A certain Kansas City physician will never know just how near death he was the other day, says the Star, when, after a thorough examination of probably the brightest, sweetest and altogether supreme nine-months-old baby in the world, the mother asked, "Well, what do you think about my baby?" and he said, "Oh, it's a normal child."

## OLD FOLKS OUTING TO BE HELD SEPT. 6

There are in Southern California a great many people who were born over seventy years ago. These people are not old in spirit, and they like to meet for a picnic reunion as well as the younger folks. So if you are over seventy, this is your invitation for yourself and all your friends past that age to attend the annual picnic reunion of all the people in Southern California who are past seventy years of age.

This, our eighth annual, will be held in Sycamore grove, Los Angeles, Saturday, September 6th. It is an all-day picnic with a basket dinner at noon, an informal program following. Bring your dinner, also cup and spoon. Coffee with cream and sugar, will be provided free for all. Come as early as you can and have a happy day with these jolly old-young people. It is intended for those over seventy, but if you need help to carry your dinner, or to aid you, why, just bring any friend along. Pass the word on to just as many as you can, so all may know of it. If you are not yet old enough, give this to some one who is. If you have an extra invitation, give it away; do not waste it. Come as early as you can and stay as long as you desire.

If you want further information, call up C. H. Parsons, Secretary of the Federation of State societies, Main 5635, or Home 10459, or see him or write to him at the Hibernian Savings Bank (in the former location of the California Savings Bank), Fourth and Spring streets, or see F. W. Hart, Secretary, 516 Stinson Building, Los Angeles, A-5344.

Hair restored to its natural color by the latest process, Mrs. Cora B. Cavins, Frou Frou Shop, 116 E. Fourth St.

## ODD NEWS NOTES

**BRIGHTON.**—Fifty legless soldiers drove in the funeral procession of Col. G. H. Coats, chief of the Pavilion hospital. One hundred one-armed men marched behind, and 300 one-legged men lined the path to the grave.

**LONDON.**—Carefully burnished condensed milk cans and Bovril bottles formed "currency" for the troops operating in Portuguese East Africa. The empty milk cans were highly esteemed by native belles for necklaces.

**LONDON.**—The term "Taking French leave" having been used in connection with desertion, Judge McCordie explained that it really arose from certain "nouveaux riches" departing without saying "goodbye" to their hosts.

**LONDON.**—The remaining of German named streets in London proceeds. Haig St. for Munster St.; Beatty St. for Canaburg St.; Cavell Square for Mecklenburg Square, and Fryatt St. for Hanover St. are suggestions.

**LONDON.**—Analysis of the water from the village well at Bulphar, Essex, following complaints as to taste, disclosed 1 oz. of magnesium sulphate, (Epsom salts) per gallon. Bulphar residents are drinking rain-water now.

**LONDON.**—"He wanted to keep me down, just as he did the men. When I wouldn't tolerate it, he left me," declared an Acton woman seeking a summons against her husband, an army sergeant.

It seems another blow at the food supply of the world when prohibition steps in and blights the wild-oats crop of coming generations.—New York Morning Telegraph.

# Firestone

## TIRES

Most Miles Per Dollar

THE dealer who has an eye to the future is building on solid rock. That explains why so many good dealers handle Firestone Gray Side-wall Tires.

To you it means reliable dealer service in addition to unequaled tire mileage, which takes much of the worry and expense out of car upkeep.

The best tire dealer in your locality is a Firestone dealer. Get acquainted with him.

**ACCEPT MILL SITE**  
The enterprising citizens of Susan-  
ville, a little town of 2,000 popu-  
lation, raised \$40,000 to bring the pro-  
posed mill of the Growers' Supply  
company to their city. Susanville is  
the county seat of Lassen county, near  
the 41,000 acres of forest just pur-  
chased by the supply company. The  
fund was used to purchase a mill site,  
which was tendered to the company.  
The supply company has accepted the  
offer and will enter the tract via Su-  
sanville.

**TO SELL MARMALADE**  
Sellers' portfolios, showing all  
the Sunkist marmalade advertise-  
ments, will appear next year.  
The book, which is the most  
complete and attractive ever issued  
by the exchange, outlines the entire  
Sunkist campaign, shows the sched-  
ules in chart form with samples of  
the various magazine advertisements,  
booklets, window displays, labels and  
other printed matter. Each sales-  
man will use the portfolio in ex-  
plaining the campaign to his cus-  
tomers.

**BE CAREFUL OF TUBES.**  
A habit of motorists to carry tubes  
unprotected in tool boxes is often  
responsible for much subsequent trou-  
ble. Tools are being bounced against  
it as the car bounds along, its sides  
are chafed and become worn. It is  
weakened before it is even inserted  
in the casing. All tubes should be  
carried in a water proof bag or well  
wrapped in a newspaper.

Escondido Starts Campaign  
To Show Just What  
Section Grows

ESCONDIDO, Aug. 29.—The agricul-  
tural center of northern San Diego  
county, which is now just bending its  
energies to making the Twelfth An-  
nual Grape Day Festival (Admission  
Day) September 9, bigger and better  
than ever, has, through its Chamber  
of Commerce, launched a campaign of  
education to prove that it has impor-  
tant products other than the luscious  
Muscat grapes.

Figures compiled by the chamber  
show that 986 carloads of freight were  
shipped out of the Escondido country  
over the Santa Fe railway last year,  
of which only 138 carloads were  
grapes. Citrus fruit shipments from  
the four packing houses totaled 300  
cars, the output distributing better  
than a half million dollars to the  
growers. Scores of young orchards are  
coming into bearing.

Forty-one carloads of canned goods,  
principally tomatoes from the new  
\$500,000 canning plant, were sent to  
northern and eastern markets. Be-  
sides 75 carloads of wine and 214 car-  
loads of hay. While most of the cat-  
tle are driven out on the hoof, twenty-  
seven carloads were shipped by rail.  
Important shipments are made by ex-  
press and by trucks, running north,  
south and west.

From the adjoining San Pasqual  
valley \$500 worth of sweet milk per  
day is being shipped into the city of  
San Diego, while the creamery, lo-  
cated in that valley turned out 100,000  
of butter last year. Escondido is the  
second largest honey producing section  
of San Diego county. As a territory  
producing diversified crops it is in the  
front rank. Pumper crops, especially  
in hay and grain, are reported for the  
past season.

On Grape Day, September 9, the Es-  
condido Chamber of Commerce will  
keep open house in its new \$500,000  
building, which was dedicated August  
19. The chamber with an enrollment  
of 700, claims the largest membership  
of any chamber of commerce, popula-  
tion considered, in the world.

SOUTHERN  
CALIFORNIA

PASADENA, Aug. 29.—The municipal  
budget for the year 1919-20 was  
set yesterday at \$1,345,274.74 by the  
City Commission after weeks of delib-  
eration. Of the amount less than one-  
half is to be raised by general taxa-  
tion. The commission also adopted  
the tax rate of \$1 on \$100 valuation.

RIVERSIDE, Aug. 29.—Riverside  
county is suffering from a shortage of  
teachers. With the opening day draw-  
ing near, there are still twelve schools  
in the county without a school m'am.  
The worst of the matter is that Coun-  
ty Superintendent Ira C. Landis hasn't  
a single application on hand and none  
is in sight.

LONG BEACH, Aug. 29.—Charges  
against J. W. Jurney and Mrs. Helen  
Harland, who were arrested here three  
weeks ago upon Los Angeles infor-  
mation that Jurney might be con-  
nected with Lewis Harris, Artesia  
bank robber, were dismissed. Follow-  
ing the dismissal the couple were re-  
quested upon a minor charge of hav-  
ing violated the city rooming house  
ordinance, to which they pleaded guilty.  
Sentence was suspended.

REDLANDS, Aug. 29.—The city  
trustees have set \$1.20 as the tax rate  
for Redlands for the coming year.  
This rate has prevailed for several  
years and despite higher costs of sal-  
aries and street work, it was decided  
that there should be no increase this  
year.

LONG BEACH, Aug. 29.—Following  
Judge Leslie Hewitt's decision after a  
recount of votes registered upon the  
city hall project here June 1, that the  
measure was carried by a majority of  
eight votes above the required two-  
thirds, it was announced that bond at-  
torneys have given assurance they will  
stamp their approval upon the  
proceedings. It is assured, therefore,  
that a \$400,000 city hall will be erect-  
ed soon upon the site of the present  
insufficient structure.

SAN DIEGO, Aug. 29.—A radiogram  
to Mayor Wilde from Lieutenant Com-  
mander Nielson received today states  
that the German U-boat 88 will arrive  
at the municipal pier today, and that  
it is planned to remain at this port  
three days.

PASADENA, Aug. 29.—Efforts will  
be made to recall City Commissioners  
John J. Hamilton and M. H. Salisbury,  
according to current reports. It is  
said that the action against the com-  
missioners was determined several  
days ago.

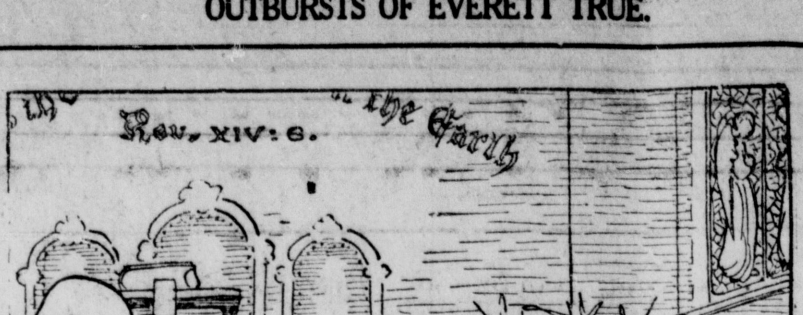

The petitions being prepared state  
that the two commissioners named  
are not representative of the wishes  
of the voters and that their official  
acts have been in opposition to the  
desires of the people of Pasadena.

**OUTBURSTS OF EVERETT TRUE.**  
The Rev. Mr. Everett True, of the  
First Baptist Church, Santa Ana, is  
the author of a new book, "The Ever-  
ett True Story," which is now being  
distributed by the Santa Ana branch  
of the Y. M. C. A. The book is a  
collection of true stories of the life  
and work of the Rev. Mr. True, and  
is a most interesting and inspiring  
read.

D. 2, Box 143, San Diego, Cal.

# THREE DAY JOY FEAST

## AT NEWPORT BEACH--BALBOA

Saturday, Sunday and Monday (Labor Day) will see the three biggest joy days the Newport-Balboa Entertainers have offered this season, particularly Sunday and Monday when the Motor Boat Races will be staged.

Motor boat bugs down at Newport Beach are so excited that they're spinning on a dime. Every speed craft in the harbor has been yanked out of cold storage and enthusiastic gangs of young men have filled 'em up with castor oil, varnish, soap suds and everything else it takes to make a motor boat step. There's so much commotion along the beach that it looks like someone was getting ready to win some kind of a war with twenty foot power buggies.

So come along early Saturday, get your reservations and be prepared to spend three days—three days of joy feasting.

### Feature Card

The free-for-all, to be started Sunday and finished up Monday, is the biggest event on the programme. Twenty motor boats are being tinkered up for this race.

Three boats will start scratch. First comes the sea sled, Myth. This bus has been worked up into perfect condition and has shown bursts of speed.

W. W. Paden's Rainbow is another scratch entry which will have to be figured on. This is one of the hydroplane species and can get up out of the water and ramble with any of them. The Camouflage, owned by Will Burnham, Jr., completes the list of favorites.

The Cad-Hill, a slim beauty hatched up by Capt. George Hill and Mr. Cadwell, is the dark horse of the meet. No one knows very much about this boat but it is stated that she has done forty-three miles per hour on a test and that her Hall-Scott motor is running better now than ever before.

And Ralph Hamlin's Joker looks like a possibility with its sixty h. p. Pierce Arrow motor.

### Entries

The other entries, all of which are credited with better than twenty miles per hour, are: Lorraine II owned by Brooks Gifford, Hal Denman's Buddy, Mary-Bill-Too of Reynolds Brothers, Campbell of Wilson Bros., Francee of Lucas Brothers, and the Miss Fontana with Herbert Newport as its boss.

### Following is the Schedule of Events

Sunday, August 31—First heat of free-for-all motor boat race for Lewis trophy, twelve miles, three laps of the heat, outside course. Start at 4 p. m. Orange County Trophy race (sail boats), 2 p. m., August 31.

Monday, September 1—Handicap race for motor boats (5 per cent. allowance allowed). Time taken for trial heat. One heat of twelve miles, six-lap course (inside). Starts at 2 p. m.

Second heat of free-for-all, inside course. Start at 9:30 a. m.

Third heat of free-for-all, inside course. Start at 10 a. m.

Free-for-all motor boat race, one heat of twelve miles, inside course. Six laps. Start at 3 p. m.

Handicap race for small boats. Two laps of inside course. Start at 4 p. m.
